and subsequently alienate certain identities as other that is as the polar opposite of the good normal citizen These identities usually center on the poor the racialised and the gendered These arguably discriminatory practices are illustrated through the investigation of the U S bio and anatomo politics of reproduction in the national family planning strategy in an analytical framework that relates them to the welfare benefit policies in the same country Panu argues that as long as neo liberal governmental apparatuses map and rule society using this combination of othering and foundational assumptions each governmental intervention reinforces the systems that make domination inequality and exclusion possible
