

Demminer Land

Puja Mehta

Demminer Land:

Es bewegt sich was im ländlichen Raum Neubauer, Anja, 2017-01-13 In den peripher l ndlichen R umen Ostdeutschlands vollzieht sich ein rascher demografischer und struktureller Wandel so auch im vorpommerschen Dorf Sarow In den letzten 15 Jahren hat es 25 % seiner Einwohner_innen verloren w hrend sich der Anteil der ber 65 J hrigen verdoppelte Aufgrund des Bev lkerungsverlusts schlie en in diesen Regionen technische und soziale Infrastrukturen darunter auch Treffpunkte wie die letzte Kneipe Der ffentliche Personennahverkehr wird reduziert der motorisierte Individualverkehr nimmt zu Alte Feldwege einst genutzt von Fu g nger_innen und Fahrradfahrer_innen verschwinden Damit wird es insgesamt immer schwieriger ohne eigenes Auto mobil zu sein und am sozialen und ffentlichen Leben teilzuhaben In dieser jungen Demokratie betrifft es vor allem die lteren die in den D rfern zur ckgeblieben sind und mit der Wende in den fr hen Ruhestand geschickt wurden Diese Mischung aus demografischen und historischen Besonderheiten ist Ausgangspunkt der vorliegenden Untersuchung zur Alltagsmobilit t lterer In der Tat gibt es bereits eine F lle von ffentlich finanzierten Forschungsprojekten und L sungsans tzen Jedoch wird die Umsetzung empfohlener Ma nahmen durch Gebiets und Verwaltungsreformen gehemmt Ma nahmen sind zudem uneffektiv wenn lokales Wissen nicht genutzt wird und aktives b rgerschaftliches Engagement f r die regionale Entwicklung fehlt Die Beteiligung der Bev lkerung an Planungsprozessen ist zwar ausdr cklich erw nscht doch sind angebotene Formate sp rlich den lteren Menschen fremd oder unzug nglich Es entsteht abgesehen von den Berichten der Lokalpresse ein Informationsvakuum Die vorliegende qualitative Fallstudie in Sarow fokussiert daher auf die Mobilit tsbedarfe und probleme der lteren Bev lkerung auf die lokalen Akteure und Ressourcen Mittels problemzentrierter Interviews kristallisierten sich der ffentliche Personennahverkehr PNV und der Radverkehr als wesentliche Problembereiche heraus Besonders kritisch werden die Abh ngigkeit von Dritten die einseitige Ausrichtung des PNV auf den Sch lerverkehr und Sicherheitsaspekte gesehen Diese Aussagen und Ergebnisse wurden um die Mobilit tsgeschichte des Ortes Experteninterviews und Planungsanalysen erg nzt zu einer B rgerausstellung aufbereitet Als Form der Action Research lud sie zum Mitdiskutieren und zum Abgleich von W nschen Planung und Wirklichkeit ein Daraus wurden Hinweise f r eine verbesserte Regional Governance abgeleitet The demographic change is proceeding rapidly in the most peripheral rural areas of northeastern Germany Consequently technical and social infrastructures become fallow Meeting places vanish as the last pub and even the last grocery close Public transport services are reduced and individual motor car traffic increases Old field paths once used by pedestrians and bicyclists get forgotten and grown over Being mobile without access to individual vehicles gets difficult and the people s participation in social interactions and public functions becomes even harder to realize In this young democracy it s the elderly who remain in the villages many of them forced to take early retirement after the fall of the wall This mixture of demographic and historical peculiarities may evoke special scientist s interest Indeed there are already many regional research projects funded by federal resources and there are a lot of ideas for

how to tackle the problem However implementing measures is difficult when local governments are busy with continuous changes in administrative structures Many measures furthermore become ineffective without an active local citizenship with concern know how and capacity in the continuous development of the region At the same time in these sparsely populated rural areas there are only few financial and administrative capacities to apply for complex development programs or to simply stay informed Therefore I suggest a micro level analysis which focuses on local actors and available resources I conducted a case study in the village Sarow Mecklenburg Vorpommern In the last 15 years it lost 25 per cent of its inhabitants while the percentage of people over the age of 65 was doubled The study which is mainly based on qualitative research methods shall not only reveal the specific mobility needs of the elder inhabitants by means of a citizens exhibition but also discuss them in public and in the light of existing regional and traffic development plans This form of Action Research is meant to be a learning platform for the inhabitants and local stakeholders as well as a contribution to mobility research The articulated mobility problems and needs need to be conveyed to relevant local and regional stakeholders of mobility concern promoting the improvement options in a network of local and regional governance An interplay of top down and bottom up approaches can help to provide modern and adequate service in rural areas Aachen - Braniß Rudolf
