Democracy And International Relations Critical Theories Problematic Practices:

Democracy and International Relations Hazel Smith, 2000-06-21 *Democracy and International Relations* is the first study of the relevance and applicability of international relations theory to the explanation of the contemporary global push for liberal democracy by the major western powers and international organizations including the UN the EU and the international financial institutions such as the World Bank and the IMF Contributors discuss the theory and practice of the push for the internationalization of liberal democracy arguing for the inadequacy of conventional international relations theorists and outlining an alternative research programme for future work A Global Political Economy of Democratisation Alison J. Ayers, 2018-02-13 The late twentieth century is often portrayed as an Age of Democratisation with democracy heralded as the best of all political systems Yet democracy has multiple meanings values and significances The start of the twenty first century has witnessed a massive revival of interest in the meaning and role of democracy not least as democracy understood in one highly particular sense has been increasingly recognised to be in crisis This book presents these deliberations in a new light by moving beyond the concept of the sovereign state as the dominant framework of enquiry and by rejecting the primacy of the state and the categorical separation of the domestic and the international Instead Ayers elaborates an account of democratisation through the global political economy encompassing a trenchant critique of mainstream democracy promotion in theory and practice and opening up possibilities for different histories of democratisation autonomous of the Western liberal and neoliberal project This innovative work will prove useful to scholars and students in the fields of Politics Political Economy International Relations Development African Studies History Geography and Sociology **Constructing Global Civil Society** D. Chandler, 2004-09-13 Global Civil Society is a crucial concept in International Relations today used as both a description of new mechanisms of non state actor and NGO engagement in international policy making and as a normative political project of international change David Chandler critically investigates the claims made by the advocates of global civil society analyzing the limits of the concept as a way of describing actual policy processes and the political dynamics behind the search for an international source of collective ethical values and social change **US Democracy Promotion in the Middle East** Dionysis Markakis, 2015-08-27 *US Democracy Promotion in the Middle East* seeks to explore the changes in US strategy towards democracy promotion in the Middle East during the Clinton and Bush administrations with a particular focus on Egypt Iraq and Kuwait At a time of regional turmoil and political reform the topic of democracy promotion has never been more pertinent We are witnessing the emergence of popular movements that are challenging authoritarian governments long supported by the US Tracing the contours of the ongoing transition in US policy in the Middle East this book critically deconstructs the strategy of democracy promotion on both a theoretical and empirical level By formulating and applying an analytical framework derived from a Gramscian approach Markakis seeks to propose a re evaluation of what US foreign policy in the Middle East truly constitutes

critiquing both the ideological foundations of the strategy as well as the implementation This book will provide a solid foundation for the analysis of US policy and in particular the strategy of democracy promotion at this time of momentous transition across the region

Democratizing Foreign Policy? Philip Nel, Janis Van der Westhuizen, 2004-01-01 In *Democratizing Foreign Policy Lessons from South Africa* fifteen established and emerging scholars use South Africa as a case study to assess the extent to which democratic consolidation can be translated into the realm of foreign policy Contributors discuss the South African Community as an arena of transnational democracy the impact of European Union trade policy and the significance of South Africa's controversial arms deals as they explore the opportunities and constraints facing recently democratized societies in the Southern Hemisphere This book provides a broad ranging assessment of the opportunities and challenges involved in opening the process of foreign policy making to civil society and the need to do so if the developing world is to better manage the complexities of globalization

The European Union's Democratization Agenda in the Mediterranean Michelle Pace, Peter Seeberg, 2013-09-13 Democracy promotion in the Middle East and North Africa MENA remains a central pillar of the foreign policy the European Union EU Rather than concentrating on the relations between the incumbent authoritarian regimes and the opposition in the relevant countries and on the degree to which these relations are affected by EU efforts at promoting democracy human rights and the rule of law an outside in approach this collection of articles inverts the focus of such relationships and attempts to look at them inside out While some contributions also emphasise the outside in axis given that this continues to be analytically rewarding the overarching thrust of this book is to provide some empirical substance for the claim that EU policy making is not unidirectional and is influenced by the perceptions and actions of its targets Thus the focus is on domestic political changes on the ground in the MENA and how they link into what the EU is attempting to achieve in the region Finally the self representation of the EU and its lack of a clear regional role is discussed This book was published as a special issue of *Democratization*
