Democracy and Its Alternatives ,2022-08-12 Democracy and Its Alternatives Richard Rose,William Mishler,Christian Haerpfer,Christian W. Haerpfer,1998-10-16 The collapse of Communism has created the opportunity for democracy to spread from Prague to the Baltic and Black Seas But the alternatives dictatorship or totalitarian rule are more in keeping with the traditions of Central Europe And for many post Communist societies democracy has come to be associated with inflation unemployment crime and corruption Is it still true then as Winston Churchill suggested a half century ago that people will accept democracy with all its faults because it is better than anything else To find out political scientists Richard Rose William Mishler and Christian Haerpfer examine evidence from post Communist societies in eastern Europe Drawing on data from public opinion and exit polls election results and interviews the authors present testable hypotheses regarding regime change consolidation and prospects for stabilization The authors point out that the abrupt transition to democracy in post Communist countries is normal gradual evolution in the Anglo American way is the exception to the rule While most recent books on democratization focus on Latin America and to some extent Asia the present volume offers a unique look at the process currently under way in nine eastern European countries the Czech Republic Hungary Slovakia Poland Slovenia Bulgaria Romania Belarus and Ukraine Despite the many problems these post Communist societies are experiencing in making the transition to a more open and democratic polity the authors conclude that a little democracy is better than no democracy at all

Global Shaping and Its Alternatives William K. Carroll,Yildiz Atasoy,Y?ld?z Atasoy,2003-01-01 Global Shaping and its Alternatives offers a unique series of reflections on the connections between market capitalism the politics of alternatives and the cultural elaboration of social change It argues that there is a need for an alternative explanatory framework on globalization one that rejects fatalism and highlights the dynamic roles of states NGOs local fractions of capital democratic movements and gendered social relations Without understanding how global shaping is taking place and how it affects human life across the globe there can be no transformational possibility for humanizing our conditions of existence

Political Culture in the Baltic States Kjetil Duvold,Sten Berglund,Joakim Ekman,2019-10-26 The book is the first systematic and comparative effort to capture political culture in the Baltic countries including political orientation and support for democracy Revolving around public opinion data from the 1990s and onwards including two recent surveys commissioned by the authors the book takes stock of the political climate prevailing in Estonia Latvia and Lithuania a quarter of a century after reclaiming independence and fifteen years after becoming members of NATO and the EU These three countries share the same geopolitical fate and many contemporary challenges and yet each has been marked by their own transitions and struggles between nation building and European integration Western and post Soviet orientations and past experience and future aspirations

The Statebuilder's Dilemma David A. Lake,2016-06-10 The central task of all statebuilding is to create a state that is regarded as legitimate by the people over whom it exercises authority This is a necessary condition for stable effective governance States sufficiently motivated to bear the costs of building a state in some distant land are likely to have interests in the future policies of that country and will therefore seek to promote loyal leaders who are sympathetic to their interests and willing to implement their preferred policies In *The Statebuilder's Dilemma* David A Lake addresses the key tradeoff between legitimacy and loyalty common to all international statebuilding attempts Except in rare cases where the policy preferences of the statebuilder and the population of the country whose state is to be built coincide as in the famous success cases of West Germany and Japan after 1945 promoting a leader who will remain loyal to the statebuilder undermines that leader's legitimacy at home In Iraq thrust into a statebuilding role it neither anticipated nor wanted the United States eventually backed Nouri al Malaki as the most favorable of a bad lot of alternative leaders Malaki then used the support of the Bush administration to govern as a Shiite partisan undermining the statebuilding effort and ultimately leading to the second failure of the Iraqi state in 2014 Ethiopia faced the same tradeoff in Somalia after the rise of a promising but irredentist government in 2006 invading to put its own puppet in power in Mogadishu But the resulting government has not been able to build significant local support and legitimacy Lake uses these cases to demonstrate that the greater the interests of the statebuilder in the target country the more difficult it is to build a legitimate state that can survive on its own
