Democracy In Plural Societies A Comparative Exploration:

Democracy in Plural Societies Arend Lijphart, 1977-01-01 While it may be difficult to achieve and maintain stable democratic governments in countries with deep religious ideological linguistic cultural or ethnic cleavages Lijphart argues that it is not at all impossible Through the analysis of political systems in six continents he demonstrates that what he calls consociational democracy can be successful in severely divided or plural societies Here once again Arend Lijphart is directing our attention to matters which will surely engage much of the attention of students of comparative politics in the next decade G Bingham Powell Jr American Political Science Review A study which can speak to such a wide audience in political science deserves a warm welcome from the profession Government and Opposition A copybook example of the comparative method of political analysis as well as indispensable reading for all who have an interest in the nature and prospects of representative democracy whether in Europe or beyond The Times Higher Education Supplement This well written work containing a wealth of information on politics of many diverse nations is highly recommended Library Journal

Imagining the United States of Africa E. Ike Udogu, 2015-02-10 This book frames the debates around the pressing desire for some form of unification that found expression in the pan Africanist movement and formation of the Organization of African Unity in Addis Ababa Ethiopia in 1963 following the advent of home rule for many former colonies of the Western powers Discussions in this volume address the following fundamental issues nationalism and political integration and how the contradictions between both philosophies can be resolved the amelioration of corruption in order to attract internal and external investments critical for developing the vast natural resources housed in the continent the need for Africa's adaptation to the ideology and practice of capitalism and liberal globalization to suit the character of African states in a projected federal United States of Africa solutions to ethnic conflicts that are bound to happen over clashes of competing group interests the indispensability and promotion of information communication technologies and urgent need to strengthen a network of regional electric power grids that would provide constant energy to the Union and lead to improvement in communication and economic growth and recommendation of social democracy as the genre of democracy suitable for a proposed United States of Africa

Lebanon after the Syrian Withdrawal Ohannes Geukjian, 2016-11-10 Lebanon experienced serious instability and ethno national conflict following the Syrian withdrawal in 2005 compounded by the Arab Spring which led to regional instability and civil war in Iraq and Syria Why did consociational democracy fail Was failure inevitable What impact could external powers play in creating an environment where consociationalism might be successfully implemented This book addresses these key questions and provides a comprehensive analysis of how internal and external elite relations influence the chances of a successful regulation of ethno national conflict through power sharing Exploring the roles played by Syria Qatar Iran Saudi Arabia the United States and France it argues that external actors in the Lebanese conflict largely determined whether power sharing was successfully established and shows that the consociational

democratic model cannot provide long term conflict regulation in their absence The author argues that relationships between internal and external actors determine the prospects for successful conflict regulation and pinpoints the crucial role of the external forces in the creation of power sharing agreements in Lebanon concluding that future success is dependent on the maintenance of positive exogenous pressures This book will be of key interest to students and scholars studying politics international relations and Middle East studies **Social Movements and the Indian Diaspora** Movindri

Reddy,2015-11-19 With the elevation of Islam and Muslim transnational networks in international affairs from the rise of Al Qaeda to the revolutions in North Africa and the Middle East the study of Diasporas and transnational identities has become more relevant Using case studies from Fiji Mauritius Trinidad and South Africa this book explores the diaspora identities and impact of social movements on politics and nationalism among indentured Indian diaspora It analyses the way in which diasporas are defined by themselves and others and the types of social movements they participate in showing how these are critical indicators of the threat they are perceived to pose The book examines the notions of national and transnational identity and how they are determined by the placement of Diasporas in the transnational locality It argues that the transnationality intrinsic to diaspora identities mark them as others in the nation state and simultaneously separates them from the perceived motherland thus displacing them from both states and situating them in a transnational locality It is from this placement that social movements among Diasporas gain salience As outsiders and insiders they are well placed to offer a formidable challenge to the host state but these challenges are limited by their hybrid identities and perceived divided loyalties Providing an in depth analysis of Indian Diasporas the book will be of interest to those studying South Asian Studies Migration and Diaspora Studies **South Africa** Siri Gloppen,2019-05-23 Originally published in 1997 South Africa The Battle over the Constitution analyses rivaling positions in the South African constitutional debate from the early 1990s via the 1993 interim constitution to the adoption and certification of the new Final Constitution in December 1996 A theoretical framework is developed to analyze the constitutional structure of the contesting constitutional models and the book looks into their potential for addressing the problems of violence social inequality and ethnic tension and for achieving legitimacy and constitutionalism It argues that the constitutional solutions are premised on incomparable conceptions of South African reality and that the Final Constitution includes elements based on incompatible world views The compromises required by the constitutional moment could pose problems for the constitutional function The book also discusses other factors influencing the consolidation of a constitutional democracy in South Africa such as the role of the Constitutional Court and the attempts to create legitimacy for the constitution by broad public participation in the constitution making process
