Political Party Systems and Democratic Development in East and Southeast Asia Taylor & Francis Group, 2018-07-30 First published in 1998 this is the second of two volumes which will be of great value to scholars and students of politics in East and Southeast Asia A rich readable reference tool they offer extensive surveys of the history structure culture legal context and financing as well as the progress travails and prospects of political parties and electoral systems in 13 countries The excellent introduction and the detailed country case studies demonstrate the wide range of political experiences in Asia Rather than affirm the thesis of a common set of Asian values hostile to democracy they show that in much of East and Southeast Asia people want the political choice and accountability that come from free and fair electoral competition with open effective political parties

Democracy in East Asia Larry Diamond, Marc F. Plattner, Yun-han Chu, 2013-02-15 Democratization scholars

believe that the next regional wave of transitions to democracy may unfold in East and Southeast Asia In their introduction to the 1998 edition of *Democracy in East Asia* Larry Diamond and Marc F Plattner predicted that East Asia with its remarkable diversity of political regimes economies and religions would likely be the most critical arena in the global struggle for democracy a prediction that has proven prescient Although the recent political upheavals in the Middle East have understandably grabbed the world's attention there is reason to doubt whether the overthrow of some authoritarian regimes there will lead to the establishment of stable democracies any time soon On the other hand East Asia the world's most populous and economically dynamic region already boasts several consolidated democracies and provides a fascinating laboratory for studies of both authoritarian resilience and the prospects for democratization This updated volume which features contributions by distinguished scholars in East Asian studies will be welcomed by instructors and students in the field particularly as U S foreign policy is in the process of undertaking a pivot toward Asia *Democracy in East Asia* offers a comprehensive treatment of the political landscape in both Northeast and Southeast Asia including discussions of China Japan South Korea Taiwan Indonesia the Philippines Malaysia Singapore Thailand Cambodia Laos Vietnam and Burma Contributors Larry Diamond Marc F Plattner Francis Fukuyama Minxin Pei Yun-han Chu Hyung Baeg Im Thitinan Pongsudhirak Dan Slater Martin Gainsborough Don Emmerson Edward Aspinall Mark Thompson Benjamin Reilly Joseph Wong Chong Min Park Yu-tzung Chang *Democratization in Southeast and East Asia* Anek Laothamatas, 1997-01-01 How has economic development affected the process of democratization in Southeast and East Asia the contributions in this volume represent one of the first efforts to answer this question from the vantage of the region In this book scholars of Southeast and East Asian politics discuss the rise and fall or stabilization and modification of democracy amidst socio-economic changes and class transformations in Indonesia Malaysia Philippines Singapore Thailand Myanmar Taiwan and South Korea The approach taken by the contributors gives a fine balance between democratization as a consequence of socio-economic development and as a political ideological process **Political Party Systems and Democratic Development**

How East Asians View Democracy Yun-han Chu,Larry Diamond,Andrew J. Nathan,Doh Chull Shin,2008-09-01 East Asian democracies are in trouble their legitimacy threatened by poor policy performance and undermined by nostalgia for the progrowth soft authoritarian regimes of the past Yet citizens throughout the region value freedom reject authoritarian alternatives and believe in democracy This book is the first to report the results of a large scale survey research project the East Asian Barometer in which eight research teams conducted national sample surveys in five new democracies Korea Taiwan the Philippines Thailand and Mongolia one established democracy Japan and two nondemocracies China and Hong Kong in order to assess the prospects for democratic consolidation The findings present a definitive account of the way in which East Asians understand their governments and their roles as citizens Contributors use their expert local knowledge to analyze responses from a set of core questions revealing both common patterns and national characteristics in citizens views of democracy They explore sources of divergence and convergence in attitudes within and across nations The findings are sobering Japanese citizens are disillusioned The region s new democracies have yet to prove themselves and citizens in authoritarian China assess their regime s democratic performance relatively favorably The contributors to this volume contradict the claim that democratic governance is incompatible with East Asian cultures but counsel against complacency toward the fate of democracy in the region While many forces affect democratic consolidation popular attitudes are a crucial factor This book shows how and why skepticism and frustration are the ruling sentiments among today s East Asians

The Political Economy of Developmental States in East Asia Tian He,2020-11-13 This book explores the variations in the transformation of the Asian developmental state in South Korea Singapore and Taiwan Based on an original theory the author argues that these variations are influenced by two factors industrial structure and democratic transition both of which are shaped by the strategic calculations of the ruling elites to maintain power The theory concerns two concurrent political processes during the state s development process namely the emergence of economic interest groups with varying levels of policy constraints on the state and the process of democratic transition driven by the rise of the middle class The book will

appeal to students and researchers in the fields of Asian politics development studies political economy and comparative politics

Shin, 2006-11-02 East Asia is one of the most dynamic areas of political change in the world today what role do citizens play in these processes of change Drawing upon a unique set of coordinated public opinion surveys conducted by the World Values Survey this book provides a dramatically new image of the political cultures of East Asia Most East Asian citizens have strong democratic aspirations even in still autocratic nations Most East Asians support liberal market reforms even in nations where state socialism has been dominant The books findings thus provide a new perspective on the political values of Asian publics We demonstrate that the dramatic socioeconomic changes of the past several decades have transformed public opinion altering many of the social norms traditionally identified with Asian values and creating public support for further political and economic modernization of the region Political culture in East Asia is not an impediment to change but creates the potential for even greater democratization and marketization Comparative Politics is a series for students and teachers of political science that deals with contemporary government and politics The General Editors are Max Kaase Professor of Political Science Vice President and Dean School of Humanities and Social Science International University Bremen Germany and Kenneth Newton Professor of Comparative Politics University of Southampton The series is produced in association with the European Consortium for Political Research

Democracy And Development In Southeast Asia Clark Neher, Ross Marlay, 2018-02-12 Exploring the remarkable political and economic changes sweeping Southeast Asia the authors take as their starting point the trend albeit uneven toward democratization They focus specifically on Asian democracy a form that has been adapted by Southeast Asians to suit their own particular needs This book begins by building a framework for understanding democracy in its broadest sense The authors investigate the uniquely Asian style of democracy which borrows democratic political institutions and meshes them with the cultural patterns specific to each country In separate chapters the authors trace the evolutionary historical processes within each country as well as citizen participation electoral practices and civil liberties The chapters end with an assessment of the prospects for democracy in that nation as well as an evaluation of whether democratic regimes are necessary for developing successful economies and societies in the new international era

Democracy Assistance Peter Burnell, 2013-10-23 This examination of how Western governments support democracy worldwide considers how countries use this aid Attention is paid to post conflict situations and semi authoritarian regimes where democratization has stalled and international support of democratic decentralization is assessed

State in Democratic East Asia Between Entanglement and Contention in Post High Growth focuses on the new and

diversifying interactions between civil society and the state in contemporary East Asia by including cases of entanglement and contention in the three fully consolidated democracies in the area Japan South Korea and Taiwan The contributions to this book argue that all three countries have reached a new era of post high growth and mature democracy leading to new social anxieties and increasing normative diversity which have direct repercussions on the relationship between the state and civil society It introduces a comparative perspective in identifying and discussing similarities and differences in East Asia based on in depth case studies in the fields of environmental issues national identities as well as neoliberalism and social inclusion that go beyond the classic dichotomy of state vs liberal civil society
