## **Democratization In The Middle East:**

*Democratization in the Middle East* Amin Saikal, Albrecht Schnabel, 2003 Part I Democratic peace conflict prevention and the United Nations Part II Secularization and democracy Part III National and regional experiences      **Democratization and Development** D. Jung, 2006-08-05 Exploring the political economy of development and democracy in the Middle East this book provides new insight into the effects of external initiatives for the support of good governance in Arab states the impact of transnational Islamist networks on democratization in the Middle East and the role of new satellite broadcasting in the Arab world      Media and Democracy in the Middle East Nael Jebril, Mohammed-Ali Abunajela, 2023-09-20 This edited volume examines the current challenges to media freedom and democratisation in the Middle East The book revisits the relationship between media consumption and activism in the region providing thorough analyses on the appropriation of social media for political engagement Since the outburst and spread of what was known as the Arab Uprisings in 2010 the political and media landscapes in the Middle East region have dramatically changed The initial hope for democratic change and governance quality improvements has faded as several regimes in the Middle East have strengthened their repressive tactics toward voices deemed critical of governments practices including journalists bloggers and activists The crumbling Arab media scene has also reached an abysmal low with little to no independence and public perception of basic freedoms in the region has significantly dropped as has trust in media and government institutions This book examines current challenges to media freedom political participation and democratisation in the region while reassessing the dynamic relationship between media use and political engagement amidst a complex political environment accompanied by a rapidly changing digital media landscape This book s relevance will appeal to varied audiences such as scholars and students of journalism communication political science and Middle Eastern studies It will also prove to be an invaluable resource for organisations dedicated to the research of political communication media freedom and use patterns of nontraditional or new media      *Elections and Democratization in the Middle East* M. Hamad, K. al-Anani, 2014-02-20 Top scholars of the Middle East set out the history and future of elections in eight Middle East countries Examining issues associated with elections the transition of governance and the ways in which technology shapes popular participation in politics and elections they discuss the future of governance and democratic transition in the region      **Pacted Democracy in the Middle East** Hicham Alaoui, 2022-05-17 This book provides a new theory for how democracy can materialize in the Middle East and the broader Muslim world It shows that one pathway to democratization lays not in resolving important but often irreconcilable debates about the role of religion in politics Rather it requires that Islamists and their secular opponents focus on the concerns of pragmatic survival that is compromise through pacting rather than battling through difficult philosophical issues about faith This is the only book length treatment of this topic and one that aims to redefine the boundaries of an urgent problem that continues to haunt struggles for democracy in the aftermath of the Arab Spring      **The Struggle over Democracy in the**

**Middle East** Nathan J. Brown, Emad Shahin, 2013-07-03 Many residents of the Middle East and more recently Western powers have placed great hope in democratization in the region Yet authoritarianism remains the norm and movement towards democracy is both slow and uneven The Struggle over Democracy in the Middle East examines democracy and democratization in the light of regional realities rather than the wishful thinking of outsiders Specialists from the region analyze democratic prospects in the region while accomplished scholars from the United States and the United Kingdom analyze Western policy providing a wide ranging survey of the efforts of individual countries and the effect of external influences Addressing themes including sectarianism culture religion security and the promotion of democracy the book examines the experiences of activists political parties religious groups and governments and highlights the difficulties involved in bringing democracy to the Middle East Providing a multifaceted approach to the issue of democratization this book will be a valuable reference for courses on Middle Eastern politics political science and democracy *The Middle East and Problems of Democracy* Heather Deegan, 1993 In the post Cold War post Gulf War political environment of the Middle East a debate about democracy and pluralism has begun In this work Heather Deegan challenges the view that political reform is unsustainable in the region and examines the moves towards democratization which have recently taken place She discusses individual countries on the basis of their political structures monarchical authoritarian theocratic confessional and multiparty She considers factors in the democratizing process such as the institution of political parties the re introduction of elections citizenship with associated rights and responsibilities and the role of Islam Democracy is not confined solely to a liberal democratic model although political change and greater levels of participation may be viewed as steps paving the way for a fuller democratization in a liberal democratic sense The author identifies certain constraints which tended to undermine political advances in the past population mobility communal division and the impact of the Cold War She places the possibilities for political reform in the wider context of the Third World in order to assess the degree to which prospects for democracy in the Middle East correspond with general conclusions about democratization in the developing world

**Middle East and North Africa** Paul J. Magnarella, 2017-07-05 This collection contains articles by highly regarded scholars assessing governance democratization and human rights in the contemporary Middle East and North Africa The authors discuss recent political developments in each of these countries and point out their accomplishments and shortcomings in the area of human rights American Democracy Promotion in the Changing Middle East Shahram Akbarzadeh, 2013 The US invasions of Afghanistan and Iraq were packaged as democracy promotion as heralding the beginning of a new phase in the politics of the Middle East when democracy would replace authoritarian regimes Many of these authoritarian regimes however were sustained by US support *Democratic Transition in the Middle East* Larbi Sadiki, Heiko Wimmen, Layla Al Zubaidi, 2013-05-02 Popular uprisings and revolts across the Arab Middle East have often resulted in a democratic faragh or void in power How society seeks to fill that void regardless of whether the regime falls or

survives is the common trajectory followed by the seven empirical case studies published here for the first time This edited volume seeks to unpack the state of the democratic void in three interrelated fields democracy legitimacy and social relations In doing so the conventional treatment of democratization as a linear formal systemic and systematic process is challenged and the power politics of democratic transition reassessed Through a close examination of case studies focusing on Bahrain Egypt Iraq Lebanon Syria and Yemen this collection introduces the reader to indigenous narratives on how power is wrested and negotiated from the bottom up It will be of interest to those seeking a fresh perspective on democratization models as well as those seeking to understand the reshaping of the Arab Middle East in the lead up to the Arab Spring

*Uncharted Journey* Thomas Carothers, Marina Ottaway, 2010-03 The United States faces no greater challenge today than successfully fulfilling its new ambition of helping bring about a democratic transformation of the Middle East *Uncharted Journey* contributes a wealth of concise illuminating insights on this subject drawing on the contributors deep knowledge of Arab politics and their substantial experience with democracy building in other parts of the world The essays in part one vividly dissect the state of Arab politics today including an up to date examination of the political shock wave in the region produced by the invasion of Iraq Part two and three set out a provocative exploration of the possible elements of a democracy promotion strategy for the region The contributors identify potential false steps as well as a productive way forward avoiding the twin shoals of either reflexive pessimism in the face of the daunting obstacles to Arab democratization or an unrealistic optimism that fails to take into account the region s political complexities Contributors include Eva Bellin Hunter College Daniel Brumberg Carnegie Endowment Thomas Carothers Carnegie Endowment Michele Dunne Georgetown University Graham Fuller Amy Hawthorne Carnegie Endowment Marina Ottaway Carnegie Endowment and Richard Youngs Foreign Policy Centre

**Democratisation in the Middle East** Birgitte Rahbek, 2005 The main aim of the book is to provide a forum for opinions held by Arabs who are neither Western puppets nor fanatical nationalists or Islamists but rather academics with a vast knowledge of the Middle East as well as of the West The authors all support the building of a democratic secular Middle East but their writings also show that although there is no easy way to achieve this goal neither is there any excuse for not making the attempt Contributors Nader Fergany author of the Arab Human Development Reports Raymond Hinnebusch professor of International Relations and Middle East Politics University of St Andrews Yezid Sayigh consultant to the international donor community in Palestine Samir Aita Syrian scholar and dissident Graham Usher British journalist Hanan Rabbani Palestinian consultant for Amnesty International Mai Yamani Saudi Arabia research fellow with the Middle East Programme at the Royal Institute of International Affairs Chatham House Fowziyah Abu Khalid Saudi sociologist Amal Shlash Iraq Huda Al Nu aimi Iraq Jgen S Nielsen Professor director of the Danish Institute in Damascus

Democracy, War, and Peace in the Middle East David Garnham, Mark A. Tessler, 1995 this volume is a highly valuable contribution to our understanding of the relation between democracy and peace in the Middle East as well as in international politics in general

this book will continue to be of value and interest for some time to come *The Historian* This book is a useful collection of essays on Middle East politics and international relations presented in a reader friendly interdisciplinary fashion *Israel Studies Bulletin* this is an important collection of challenging papers *Studies in Contemporary Jewry* one of the first books that specifically focuses on the possible links between democracy and peace in the region It is entertaining and highly useful *MESA Bulletin* What are the prospects for continued movement toward democracy in the Arab world and what form is democracy likely to take What impact will democratization have on war and peace in the Middle East Scholars explore these issues in this timely book

**Rules and Rights in the Middle East** Ellis Goldberg, Reşat Kasaba, Joel S. Migdal, 1993 As a whole the book demonstrates that neither the region's overgrown state structures nor the corresponding weakness of autonomous societal organizations can be explained by referring to cultural characteristics of the people in the Middle East or to the precepts of their religions True explanations the authors argue should be framed historically They pay special attention to the relations among the various groups and regions of the Middle East and to those between the Middle East and western Europe The authors emphasize the important role played by economic issues and constraints in broadening or narrowing the scope of democracy at various points in time and finally they are in agreement in seeing religion and culture of the Middle East not in static and essentialist terms but as dynamic phenomena that grow independently and even in opposition to existing political authorities

**BOOK JACKET** *Democratization in the Middle East* Victor Ho, 2005-04 The Middle East is the home of vast ancient empires that have come and gone Thousands have died in many conflicts Statesmen and politicians have seen their careers or lives ended prematurely still the dramas and tragedies continue to play out to the present day with no end in sight Three great monotheistic faiths Judaism Christianity and Islam that were birthed in the Middle East still have their roles to play in this cradle of civilization Read why respect understanding democracy is the answer to world peace States columnist founder of LotusBooks.net Melanie Schurr Highly recommended An interesting and insightful read that is well written researched I learned a lot about peoples of diverse nations and their beliefs I was surprised to see how much we have in common and it is with that foundation perhaps we may find peace Victor Ho is donating 50 per cent of the royalties of his book to the Restoration of Church Buildings The author resides in China

**Al Jazeera and Democratization** Ezzeddine Abdelmoula, 2015-03-02 Al Jazeera and Democratization analyses the increasing role of the media in political transformations with a special emphasis on the Arab world Taking the Al Jazeera media network as a case study the author explains how engaging the public and providing platforms for open debate and free expression contributed to the emergence of a new vibrant Arab public sphere The launch of Al Jazeera in 1996 was a significant event that led to subsequent changes both in Arab media and politics Among these changes the Arab spring is certainly the most remarkable This unprecedented phenomenon has already resulted in political change in a number of countries and is expected to generate a democratizing wave and reshape the face of the region The Arab spring provides us with a telling empirical

example where the interplay between media and politics is manifest The public sphere that has emerged out of this newly communicative environment has undoubtedly played its role in the current political transformations In this context Arab democratization is no longer an abstract it is rather a developing process that needs our attention and requires concerted scholarly efforts Highly topical this book provides a fresh theoretical perspective on Arab democratization in light of the Arab Spring and is essential reading for researchers and students of Middle East Politics Media Studies and Democratization

Non-Western Encounters with Democratization Dr Christopher K Lamont, Prof Dr Jan van der Harst, Dr Frank Gaenssmantel, 2015-04-28 Non Western Encounters with Democratization offers diverse perspectives on democracy and transition spanning the Middle East and North Africa to East Asia This unique collection of essays drawn from contextually rich case studies presents readers with a variety of non western encounters with democracy and provides important insights into the dramatic political and social transformations in these regions over the past decades The book offers a deeper understanding of democratization and challenges the image of western democracy as a universal model to which non western societies aspire

**Democracy and Arab Political Culture** Elie Kedourie, 2013-11-05 Except for Israel the Middle East remains largely untouched by the democratic revolution that swept across Eastern Europe and the former USSR This book aims to explain and analyze the reasons why despotism or religious fundamentalism continue to control the Middle Eastern countries

**Rethinking Arab Democratization** Larbi Sadiki, 2009-02-12 How do Arab countries democratise This is the key question this book seeks to answer To this end the book assesses Arab democratic experiments and analyzes the opportunities and perils highlighting the peculiarities of democratic transitions in the Arab Middle East

*Civil Society and Democratization in the Arab World* Francesco Cavatorta, Vincent Durac, 2010-10-04 The transition paradigm has traditionally viewed civil society activism as an essential condition for the establishment of democracy The democracy promotion strategies of Western policy makers have therefore been based on strengthening civil society in authoritarian settings in order to support the development of social capital to challenge undemocratic regimes This book questions the validity of the link between an active associational life and democratization It examines civil society in the Arab world in order to illustrate how authoritarian constraints structure civil society dynamics in the region in ways that hinder transition to democracy Building on innovative theoretical work and drawing on empirical data from extensive fieldwork in the region this study demonstrates how the activism of civil society in five different Arab countries strengthens rather than weakens authoritarian practices and rule Through an analysis of the specific legal and political constraints on associational life and the impact of these on relations between different civic groups and between associations and state authorities the book demonstrates that the claim that civil society plays a positive role in processes of democratic transformation is highly questionable Offering a broad and alternative vision of the state of civil society in the region this book will be an important contribution to studies on Middle Eastern politics democratization and civil society activism
