Design Your Life Ellen Lupton, Julia Lupton, 2025-09-23 *Design Your Life* is a series of irreverent and realistic snapshots about objects and how we interact with them. By leading design thinker Ellen Lupton and her twin sister Julia Lupton, it shows how design is about much more than what's bought at high end stores or the modern look at IKEA. Design is critical thinking, a way to look at the world and wonder why things work and why they don't. Illustrated with original paintings of objects both ordinary and odd, *Design Your Life* casts a sharp eye on everything from roller bags, bras, toilet paper, and stuffed animals to parenting piles, porches, and potted plants. Using humor and insight, Ellen and Julia explore the practical side of everyday design, looking at how it impacts your life in unexpected ways and what you can do about it. Speaking to the popular interest in design as well as people's desire to make their own way through a mass-produced world, this thoughtful book takes a fresh and humorous approach to make some serious points about the impact of design on our lives. Find out what's wrong with the bras, pillows, potted plants, and the other hopeless stuff you use. Buy clean water or put away everyday. Discover how to secretly control the actions of those around you by choosing and placing objects carefully. Find out how roller bags are threatening civilization and how the layout of your own house might be making you miserable. Use the tools of self-publishing to take the power of branding into your own hands. Taking a fresh, funny look at parenthood, housekeeping, entertaining, time management, crafting, and more, *Design Your Life* shows you how to evaluate the things you use and how to recognize forms of order that secretly inhabit the messes of daily life, be it a cluttered room or a busy schedule. Use this book to gain control over your environment and tap into the power of design to communicate with friends, family, and the world. **Popular Science**, 2005-10 *Popular Science* gives our readers the information and tools to improve their technology and their world.
