**Handbook of Research on Applied Artificial Intelligence and Robotics for Government Processes** Valle-Cruz, David, Plata-Cesar, Nely, González-Ruíz, Jacobo Leonardo, 2022-09-16 Artificial intelligence AI and robotics have boomed in the 21st century These emerging and disruptive technologies are immersed in our lives from apps in mobile devices the purchases we make on the internet streaming platforms and even court decisions and predictive policing Together with science and certain needs relevant implementations of AI and robotics arise related to its transparency resulting in biases the kinds of applications that can be implemented and the degree of workforce replacement in decision making assistance It is essential to analyze the widely used AI techniques the application of these technologies in different sectors the implications of AI and robotics on society and welfare and more The Handbook of Research on Applied Artificial Intelligence and Robotics for Government Processes presents state of the art research on AI and robotics in different fields of knowledge its benefits applications and implications It features chapters containing theoretical and practical research that analyzes the transparency and expandability of AI in different fields as well as the analysis of unexpected results biases and cases of discrimination Covering topics such as criminal intelligence artificial intelligence based chatbots and gender violence this major reference work is an excellent resource for government officials practitioners in the public sector business administrators and managers IT professionals law enforcement federal agencies students and faculty of higher education researchers and academicians

**The Business Year: Abu Dhabi 2020** Peter Howson, 2020-04-20 As Ecuador and the world at large grapple with the emerging challenge of the COVID 19 pandemic it is important not to forget the fundamentals of the Ecuadorian economy and the success stories of 2019 and the start of 2020 We believe contained within these pages is an accurate balanced account of the state of the Ecuadorian economy as of publication told through the words of the dozens of top public and private sector figures The Business Year s country specific publications sometimes featuring over 150 face to face interviews are among the most comprehensive annual economic publications available internationally This 212 page publication covers green economy finance hydrocarbons mining agriculture construction industry transport education health ICT and tourism

**Investing in the Technologies of Tomorrow** Gregory Georgiou, 1994 Virtual Reality genetic engineering high definition television What were once science fiction are now today s reality and could well be tomorrow s greatest investment opportunities Investing in the Technologies of Tomorrow spotlights the technologies which will change the way we live in the 21st century and identifies the companies which will bring these technologies to fruition This fascinating book discusses the money making potential for each technology and provides investors with the tools to select the companies destined to become the Apple Computers and Microsofts of the 21st century According to the U S government the domestic market for emerging technologies will hit 350 billion in annual sales by the end of the century while the world market will approach 1 TRILLION Indeed emerging technologies are important because they could very well determine who wins and

who loses the battle for global economic dominance in the 21st century For investors who pick the next technological winners the rewards will be enormous Just look at the huge stock price gains in many technology companies in recent years Genentech up 361% in 16 months Digital Equipment up 917% in 37 months and Wang Labs up 1543% in 34 months Clearly high tech means high profits But investing in the Technologies of Tomorrow is far more than an investment book It is a compelling vision of how technology will change our lives in the 21st century Consider some of the possibilities floating trains that move as fast as airplanes tiny robots that are injected in patients to perform surgeries virtual reality machines that can simulate any human experience ranging from space travel to sex With each technology this book explains the challenges to achieve widespread commercialization Most importantly author Gregory Georgiou an award winning financial journalist pinpoints the companies investors should watch Right now there are dozens of small publicly held companies working on breakthrough technologies Although not every company will hit it big undoubtedly there will be some huge successes Somewhere out there hides the next AT T or Microsoft Technology is the greatest force for change in our lives Whether you are an investor looking for opportunities or whether you simply want to understand the mysteries of the 21st century Investing in the Technologies of Tomorrow will surpass your expectations It is superbly written glimpse into the future
