Football Coaching Carl Wild, 2025-04-24 *Football Coaching Putting the Theory into Practice* is an essential guide for any student who is studying not just an undergraduate or postgraduate football coaching degree but any degree that has a focus on coaching. In addition to this it is also a vital resource for any football coach especially those working through their UEFA coaching qualifications. Football coaches constantly ask how academic research should inform applied coaching practice and in turn how coaches should apply academic research into their professional activities. This book presents answers to these questions by discussing the key academic research that is integral to coaching practice. It will also provide actual specific examples that demonstrate how these theories can be applied within the coaching environment and more specifically within the coaching practice of a football coach. It is written by contributors with expertise as academics within higher education whilst also having years of experience working at the highest level within the industry. *Football Coaching Putting the Theory into Practice* is key reading for all students on any coaching degree especially those studying football coaching as well as benefitting any football coach and coaches from other sports specifically coaches from sports that are classified as invasion games.

Youth Football Coaching Simon Jay, 2015-12-24 Most youth football teams are managed by amateur coaches parents and teachers who have a love of the game but often don't have the relevant coaching qualifications or training. You want the best for and out of your team but where do you start? *Youth Football Coaching* is essential reading for all those who coach 11 a side to 11 18 year olds and want to plan and deliver structured professional training sessions to assist their team to reach full potential throughout the season. Everything you need to know to prepare and practice a long term coaching plan. A coaching formula for greater team and individual success.
