Defining Acts:

Acts of Citizenship Engin F. Isin, Greg M. Nielsen, 2008-08-15 This book introduces the concept of act of citizenship and in doing so re orients the study of what it means to be a citizen Isin and Nielsen show that an act of citizenship is the event through which subjects constitute themselves as citizens They claim that such an act involves both responsibility and answerability but is ultimately irreducible to either This study of citizenship is truly interdisciplinary drawing not only on new developments in politics sociology geography and anthropology but also on psychoanalysis philosophy and history Ranging from Antigone and Socrates in the ancient world to checkpoints euthanasia and flash mobs in the modern one the acts and chapters here build up a dynamic and wide ranging picture Acts of Citizenship provides important new insights for all those concerned with the relationship between individuals groups and polities

Public and Local Acts of the Legislature of the State of Michigan Michigan, 1903 *Acts Passed by the General Assembly of Georgia* Georgia, 1887 *Judaism's Story of Creation* Jacob Neusner, 2021-09-06 During the formative age of Judaism the first seven centuries CE the great rabbis thought deeply about beginnings in light of endings They imposed upon their sequential reading of each passage the accumulated results of their reflection about all passages Thus they encompassed Scripture so as to describe the world as God had intended it to be This act of intellect resulted in two distinct ahistorical media of thought and expression the Halakhah law and Aggadah lore The author provides three systematic accounts of the Halakhic reading and two Aggadic accounts The Halakhic accounts cover 1 Work and Rest 2 Ownership and Possession Eden and the Land and 3 Ownership and Possession in the Household The Aggadic accounts pertain to 1 the Six Days of Creation and 2 Adam and Eve

another Through this approach he is able to show the distinctive level and scope of analysis of each theory to demonstrate why the sociologist must draw upon and integrate several viewpoints for interpreting research results and formulating hypotheses A useful guide and reference work for researchers and teachers the book is an excellent basic or supplementary text for all theory courses As Robert K Merton noted at the time of the original publication Sociological Theory is a bea
