Deleuze And Philosophy The Difference Engineer:

Deleuze and Philosophy Keith Ansell-Pearson, 1997 This searching new collection considers Deleuze's relation to the philosophical tradition and beyond to the future of philosophy science and technology Revisiting Normativity with Deleuze Rosi Braidotti, Patricia Pisters, 2013-03-14 This volume assembles some of the most distinguished scholars in the field of Deleuze studies in order to provide both an accessible introduction to key concepts in Deleuze s thought and to test them in view of the issue of normativity This includes not only the law but also the guestion of norms and values in the broader ethical political and methodological sense The volume argues that Deleuze's philosophy rejects the unitary vision of the subject as a self regulating rationalist entity and replaces it with a process oriented relational vision of the subject But what can we do exactly with this alternative nomadic vision What modes of normativity are available outside the parameters of liberal self reflexive individualism on the one hand and the communitarian model on the other This interdisciplinary volume explores these issues in three directions that mirror Deleuze and Guattari's defense of the parallelism between philosophy science and the arts The volume therefore covers socio political and legal theory the epistemological critique of scientific discourse and the cultural artistic and aesthetic interventions emerging from Deleuze's philosophy Ethos Cheri Lynne Carr, 2018-05-02 Cheri Lynne Carr explores the very real potential of Deleuze's clandestine use of Kantian critique for developing a new ethical practice. This new practice is built on an idea implicit in much of Deleuzian thought the idea of critique as a way of life Education and the Politics of Becoming Diana Masny, David Cole, 2020-10-28 This collection examines education in the light of a politics of becoming It takes a non hierarchical transdisciplinary approach challenging the macropolitics of pre established governmental and economic agendas for education Drawing on the philosophy of Gilles Deleuze and Felix Guattari the contributors consider questions such as how education might engage a politics of becoming and how education and becoming function in a society of control Since Deleuze and Guattari contend that a society is defined by its becomings its transformations this collection asks how education itself a process in becoming may contribute collective creations to a society in continual flux The chapters bring theory and praxis together deploying power affect cartography space relationality assemblage and multiple literacies in order to experiment with music art language teacher education curriculum and policy studies This collection is an innovative resource creating an encounter with the macropolitics of education and altering teaching learning evaluation and curriculum This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education French Theory in America Sylvere Lotringer, Sande Cohen, 2013-02-01 What does it mean todo theory in America In what ways has French Theory changed American intellectual and artistic life How different is it from what French intellectuals themselves conceived and what does all this tell us about American intellectual life Is French Theory still a significant force in America raising conceptual questions not easily answered In this volume of new work including the French writers Julia Kristeva Jacques Derrida Jean
