Delphian Text Delphian Society,1926 **Delphian Text** Delphian Society,1927 **The Faerie Queene as Children's Literature** Velma Bourgeois Richmond,2016-07-11 Edmund Spenser's vast epic poem *The Faerie Queene* is the most challenging masterpiece in early modern literature and is praised as the work most representative of the Elizabethan age. In it he fused traditions of medieval romance and classical epic with his religious and political allegory, creating a Protestant alternative to the Catholic romances rejected by humanists and Puritans. The poem was later made over as children's literature, retold in lavish volumes and schoolbooks and appreciated in pedagogical studies and literary histories. Distinguished writers for children simplified the stories and noted artists illustrated them. Children were less encouraged to consider the allegory than to be inspired to the moral virtues. This book studies *The Faerie Queene's* many adaptations for a young audience in order to provide a richer understanding of both the original and adapted texts. *The Journal of Hellenic Studies*, 1929 **The Journal of Hellenic Studies**, 1976 Author - Title Catalog University of California, Berkeley. Focusing on mass communication and society and how this research fits into larger patterns of social thought, this valuable collection features key texts covering the media studies traditions of the Chicago school, the effects tradition, the critical theory of the Frankfurt school, and mass society theory. Where possible, articles are reproduced in their entirety to preserve the historical flavor and texture of the original works. Topics include popular theater, yellow journalism, cinema, books, public relations, political and military propaganda, advertising, opinion polling, photography, the avant-garde, popular magazines, comics, the urban press, radio drama, soap opera, popular music, and television drama and news. This text is ideal for upper-level courses in mass communication and media theory, media and society, mass communication effects, and mass media history.
