Democracy In The European Union Integration Through Deliberation:

Democracy in the European Union Erik Oddvar Eriksen, John Erik Fossum, 2002-09-11 The European Union is widely held to suffer from a democratic deficit and this raises a wider question can democracy at all be applied to decision making bodies beyond the nation state Today the EU is a highly complex entity undergoing profound changes This book asks how the type of cooperation that the EU is based on can be explained what are the integrative forces in the EU and how can integration at a supra national level come about The key thinkers represented in this volume stress that in order to understand integration beyond the nation state we need new explanatory categories associated with deliberation because a supranational entity as the EU possesses far weaker and less well developed means of coercion bargaining resources than do states The most appropriate term to denote this is the notion of deliberative supranationalism This pioneering work headed by major writers such as Habermas Schlesinger and Bellamy brings a new perspective to this key issue in contemporary politics and political theory *Debating Political Identity and Legitimacy in the European Union* Sonia Lucarelli, Furio Cerutti, Vivien Schmidt, 2012-08-06 How can we conceptualize identity and legitimacy in the context of the European union What is the role of narratives political symbols public debate and institutional practices in the process of identity formation and legitimacy consolidation *Debating Political Identity and Legitimacy in the European Union* addresses these questions and brings together high profile scholars from various disciplinary backgrounds to debate the ontological and epistemological aspects of research on identity and legitimacy formation in the EU Part I investigates key elements such as the relationship between Europeanization of the EU member states and its effect on the political identity of their citizens the relationship between the politicization of the EU and processes of identity and legitimacy formation and the indispensability of European identity for legitimizing the EU Part II looks at pathways to identity formation and legitimacy construction in the EU by considering alternative types of constitutional legitimacy political symbolism Europeanization and politicization of the debate on EU focusing on the foreign policy domain Bringing together a wide but coherent range of high profile perspectives this book will of interest to students and scholars of European studies Political Science Philosophy Sociology and Law The Making of a European Constitution Sonja Puntscher Riekmann, Wolfgang Wessels, 2007-08-19 The aim of this publication is an analysis of the process of European constitutionalisation and its entanglement with relevant national discourses Thus national constitutional traditions in Austria France Germany and the United Kingdom are evaluated with regard to the positions of the respective national representatives in the European Convention Interviews with Members of National Parliaments and of the European Parliament as well as a content analysis of the debate on the future of Europe in print media form the empirical basis of this study **Democracy, Legitimacy and the European Union** Christer Karlsson, 2001 This study provides a comprehensive analysis of the democratic status of the EU political system and the Union's alleged legitimacy crisis It also examines six different positions on how to address the EU's democratic deficit Three of these defend

Interest Representation in the European Union Justin Greenwood, 2017-09-16 Why is the EU so reliant upon exchanges with interest organisations What safeguards have been developed to prevent capture by special interests and how effective are these How does the EU system of interest representation compare with those of other systems and what are its unique features The fully revised fourth edition of this highly acclaimed book provides an authoritative and comprehensive assessment of the role of organized interests in the EU Showing that interest representation is a key aspect of the European project it examines the significance of interests for everyday policy making for European integration and for the democratic legitimacy of the EU Accessibly written and thoroughly updated the new edition contains additional material on the regulation of lobbying and the European Transparency Register
