Democratic Innovation Deliberation Representation And Association:

Democratic Innovation Michael Saward, 2003-08-27 Democratic Innovation is an original look at the political future of democracy exploring the latest ideas aimed at renewing popular power Featuring new writings by leading European American and Australian democratic theorists this book explores the following themes the importance of public deliberation in democracies how effective representation for all might be achieved the role that voluntary associations can play in democratic governance Democratic Innovation Michael Saward, 2000 **Towards a Deliberative and Associational**

Democracy Stephen Elstub, 2008-04-25 In an era where citizens of liberal democracies are becoming increasingly disillusioned dissatisfied and disenfranchised by the dominant political institutions and decision making processes in these polities new ideas of how to deepen democracy re engage citizens and enhance decision making legitimacy are required This book suggests that a combination of deliberative democracy and associational democracy is both a normatively desirable and an empirically plausible solution to the complex problems that are present in contemporary societies as well as being compatible with many recent trends in governance Author Stephen Elstub argues that by combining deliberative with associational democracy the weaknesses of each model alone are compensated by the other allowing the key strengths of each to manifest themselves And he goes further by offering a detailed set of original institutional requirements for liberal democracies that if adopted will enable a deliberative and associational democracy to be realised in practice

Deliberative Democracy and the Environment Graham Smith, 2003-08-29 Contemporary democracies are frequently criticized for failing to respond adequately to environmental problems and our political institutions are often charged with misrepresenting environmental values in decision making processes In this innovative volume Graham Smith argues that the enhancement and institutionalisation of democratic deliberation will improve reflection on the wide range of environmental values that citizens hold Drawing on theories of deliberative democracy Smith argues that institutions need to be restructured in order to promote democratic dialogue and reflection on the plurality of environmental values Deliberative Democracy and the Environment makes an important contribution to our understanding of the relationship between democratic and green political theory Drawing on evidence from Europe and the United States it systematically engages with questions of institutional design **Dialogue, Politics and Gender** Jude Browne, 2013-05-23 Examines the relationship between gender discourse and deliberation focusing on how far consensus achieved through deliberation can reflect gender differences **The Korean Journal of Policy Studies** , 2010 European Journal of Political Research , 2008

Managing Leviathan Robert Paehlke, Douglas Torgerson, 2005-05 Anyone wishing to explore the cutting edge of environmental policy and management will find this book an invaluable tool The Honourable David Anderson Minister of Environment Government of Canada 1999 2004 *The University of New South Wales Law Journal* , 2001 **Law, Legitimacy, and European Governance** Stijn Smismans, 2004 This volume examines the role of law in increasing the

legitimacy of European decision making by structuring and facilitating diverse forms of participation representation and deliberation whilst ensuring transparency and accountability The democratic deficit and the legitimacy of the European Union have attracted the attention of both lawyers and political scientists but few have examined normatively the role of interest groups or of functional participation in European governance This book examines institutional settings such as committees agencies and social dialogue within which such participation occurs Moving beyond generalities the author provides a detailed empirical account of participation within one policy sector EC occupational health and safety Smismans argues that different institutional settings for functional participation are underpinned by very different considerations they weight balanced representation deliberation and expertise differently He shows how this participation differs between legislation and regulatory implementation and appraises the extent to which participation can compensate for a lack of territorial representation in implementation procedures and can exert some control over scientific experts This book reveals changes in functional participation over time from regulatory to persuasive policy making and argues that the new forms of governance are not necessarily more participatory than the old Evaluating Transnational NGOs Jens Steffek, Kristina Hahn, 2010-04-14 This book provides the reader with a broad overview of the current debate on the evaluation of transnational NGOs combining the academic with the practitioners perspectives The contributions to this edited volume deal with the key concepts of legitimacy accountability and representation covering a variety of issue areas and NGOs

Governance and Civil Society in the European Union, Vol. 2 Carlo Ruzza, Vincent Della Sala, 2007-09-15 This volume focuses on the role of organized civil society in European public policies The contributions discuss the role of public pressure groups and their relations with organized business and institutional actors They examine the context of interest representation in EU institutions reviewing the functions and opportunities of EU lobbies and public interest groups in several policy areas These include environmental policy and the impact of environmental social movements and anti racist policy in the broader context of anti discrimination policy Several contributions suggest that policy making emerges from a fragmented coalition of NGOs politicians and civil servants operating in connected but distinct regulative environments

Democracy's Infrastructure Marcia Grimes, 2005 **Revista Română de Știință Politică**, 2009 **Norms and Inequality in International Society** Ann E. Towns, 2004 *Governance and Civil Society in the European Union: Exploring policy issues* Carlo Ruzza, Vincent Della Sala, 2007 **Democracy as the Political Empowerment of the People** Majid Behrouzi, 2005-05-17 The original formulation of democracy rule by the people included the direct participation by citizens in legislative and political decision making says Behrouze mathematics and philosophy Cuyahoga Community College Ohio but this fundamental has been distorted by modern representative governments He offers a short conceptual history of the idea of democracy that highlights how powerful intellectual and political economic forces have devoted themselves to portraying direct democracy as impractical and even dangerous **Forthcoming Books** Rose Arny, 2000 **The Morality**

of Conflict Samantha Besson, 2005-11-23 It aims to provide a fully fledged political morality of conflict by drawing on the analysis of topical jurisprudential questions in the new light of disagreement **Civil Society and Legitimate European Governance** Stijn Smismans, 2006 Based on a workshop organized at the Institut d Etudes Politiques in Paris in May 2003
