**Democratic Responses To Terrorism** Leonard B. Weinberg, 2007-12-30 In the public debate many observers have argued that there is a trade off between fighting terrorism and enhancing democracy implying that democratic governance and its practices are obstacles to confronting terrorism effectively The purpose of this volume is to show that the values and principles of democracy must not be seen as a hindrance but should rather be considered as essential components of a counter terrorist strategy With a foreword by Fernando Henrique Cardoso former president of Brazil the essays here assess the elements of a new response against terrorism such as the role of the legal framework human rights democracy and civil society as well as international cooperation

**Democracy in International Law-Making** Salar Abbasi, 2021-12-20 This book provides a critique of current international law making and draws on a set of principles from Persian philosophers to present an alternative to influence the development of international law making procedure The work conceptualizes a substantive notion of democracy in order to regulate international law making mechanisms under a set of principles developed between the twelfth and seventeenth centuries in Persia What the author here names democratic egalitarian multilateralism is founded on the idea of egalitarian law by Suhrawardi the account of substantial motion by Mulla Sadra and the ideal of intercultural dialectical democracy developed by R m Following a discussion of the conceptual flaws of the chartered and customary sources of international law it is argued that democratic egalitarian multilateralism could be a source for a set of principles to regulate the procedures through which international treaties are made as well as a criterion for customary international law ascertainment Presenting an alternative drawn from a less dominant culture to the established ideas of international law making the book will be essential reading for researchers and academics working in public international law history of law legal theory comparative legal theory Islamic law and history
