Do More in Four Joe O'Connor, Jared Lindzon, 2026-01-13 An impassioned and data-driven case for a four-day workweek. The five-day workweek is a pillar of modern life, but it isn't backed by science, ancient wisdom, or divine decree. It's simply a relic of the industrial age, and it's time for an upgrade. What if we could accomplish more while working fewer days? A shortened workweek once seemed like a radical idea. Today, it's embraced by innovative business leaders, forward-thinking politicians, and a new generation of workers demanding more meaningful work. In **Do More in Four**, Joe O'Connor, a pioneer in designing and leading four-day workweek pilots around the globe, and journalist Jared Lindzon, whose work has appeared in the *New York Times*, *Fortune*, and *TIME* magazine, present a groundbreaking data-driven exploration of why a four-day workweek isn't merely possible; it's necessary in the age of artificial intelligence. O'Connor and Lindzon draw on extensive research

compelling case studies and personal interviews with experts including a Nobel Prize winning economist and Bill Gates to reveal how organizations are reimagining work From a consumer products giant in New Zealand to a global nonprofit a Canadian law firm and a Midwestern architecture firm they take readers inside the companies transforming their work models to improve employee outcomes while driving revenue growth Do More in Four offers a battle tested blueprint for a smarter more humane approach to work
