Keith, 2023-10-13 Informed in part by sessions at the Assessment Institute in Indianapolis the oldest and largest U S event focused on assessing and improving higher education this second edition of Trends in Assessment is intended to encapsulate lessons learned from the recent past reflect the current state and inspire future directions for higher education assessment Throughout the volume organizers of the Assessment Institute contribute chapters framed around some of the major topics tracks and themes from the annual program Each chapter provides important background and context with attention to the significance of the topic describes current and enduring trends and offers ideas about emerging trends and their implications for higher education Chapters conclude with a summary of the main trends and questions for consideration and discussion The volume is also influenced by the work of key Assessment Institute national level partners along with the substantial bodies of literature on student learning and development assessment and improvement and higher education administration This book provides readers with information strategies and resources on assessment concepts and approaches across a broad and diverse mix of disciplines institutional and organizational types and levels of experience in higher education assessment Designed to be incorporated into workshops professional development programs and courses faculty and staff members educational developers student affairs practitioners and graduate students of higher education administration will find the ideas and information presented in Trends in Assessment a useful resource on assessment and improvement in contemporary higher education

Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang Thien, 2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work

has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks
