discovery of the Slavs The book begins by discussing Venetian literary perspectives on Dalmatia notably the drama of Carlo Goldoni and the memoirs of Carlo Gozzi It then studies the work that brought the subject of Dalmatia to the attention of the European Enlightenment the travel account of the Paduan philosopher Alberto Fortis which was translated from Italian into English French and German The next two chapters focus on the Dalmatian inland mountain people called the Morlacchi famous as savages throughout Europe in the eighteenth century The Morlacchi are considered first as a concern of Venetian administration and then in relation to the problem of the noble savage anthropologically studied and poetically celebrated The book then describes the meeting of these administrative and philosophical discourses concerning Dalmatia during the final decades of the Venetian Republic It concludes by assessing the legacy of the Venetian Enlightenment for later perspectives on Dalmatia and the South Slavs from Napoleonic Illyria to twentieth century Yugoslavia **Croatia:**
