Daily Problem Solving Activities Andrew K. Gruen, Lynn S. Gruen, 1994-01-01 **Journal of Speech-language Pathology and Audiology**, 1997 **Tools for Promoting Independent Living Skills in Individuals with Disabilities**

Dimitriadou, Ioanna, Vasileiadis, Ilias, Koutras, Spyros, 2024-10-30 Promoting independent living skills in individuals with disabilities is a crucial aspect of enhancing their quality of life and enabling them to thrive. These skills, which range from personal care and household management to navigating social and community settings, are essential for fostering autonomy and self-reliance. Teaching these skills requires a tailored approach that considers the unique needs of each individual, ensuring that they are equipped to face daily challenges and succeed in the personal and professional aspects of their lives. **Tools for Promoting Independent Living Skills in Individuals With Disabilities** provides a comprehensive resource for educators and specialists working across multiple disciplines. Problem-Solving Parent Conferences in Schools Dennis J. Simon, 2019-07-31 **Problem Solving Parent Conferences in Schools** presents a Problem Solving Parent Conference (PPC) model that integrates and applies empirically supported systemic and behavioral intervention strategies to coordinated home school interventions for student behavioral and social/emotional concerns. Though today's schools seek to further understand student behaviors from ecological and systemic perspectives, there are limited resources available on how to effectively collaborate with families, a key social environmental context. This unique book engages parents and teachers in a five-stage protocol towards more effective student support. These evidence-based, change-oriented approaches will be essential for graduate students in school psychology, school social work, and school counseling programs, in teacher preparation, and in any related course focused on parents and families in school settings. Its resources are also critical for mental health practitioners who work with children, adolescents, families, and schools.

Without discounting the value of evidence-based treatments for specific pathologies, it emphasizes the importance of advanced clinical interviewing skills for truly understanding patients' backgrounds, concerns, and goals for treatment. Filled with case vignettes, the book opens with an overview of numerous therapeutic modalities, including cognitive behavioral therapy, motivational interviewing, dialectical behavior therapy, and group therapies, and their use with older adults.
