Dancing Naked In Front Of The Fridge And Other Lessons From Twins:

Dancing Naked in Front of the Fridge Nancy J. Sipes, Janna S. Sipes, 1998 What began as a four year old's joyful jig in front of a shiny refrigerator has become a unique way to look at life as a dance in front of a mirror each person constantly reflecting off the other Dancing Naked in Front of the Fridge is the first book of its kind co-authored by identical twins It takes you inside twinship and inside yourself for a new fascinating view of relationships The twin relationship is something everyone can learn from

The Spectacle of Twins in American Literature and Popular Culture Karen Dillon, 2018-08-03 The cultural fantasy of twins imagines them as physically and behaviorally identical Media portrayals consistently offer the spectacle of twins who share an insular closeness and perform a supposed likeness standing side by side speaking and acting in unison Treating twinship as a cultural phenomenon this first comprehensive study of twins in American literature and popular culture examines the historical narrative within the discourses of experimentation aberrance and eugenics and how it has shaped their representations in the 20th and 21st centuries

Having Twins and More Elizabeth Noble, Leo Sorger, 2003 Considers the needs of prospective multiple birth parents

The Twin Enigma Vivienne Lewin, 2018-05-08 The book offers a unique in depth understanding of the twin relationship and the way in which twin development is affected by our attitudes to twins and our enduring fascination with them It explores our historical fascination with this subject and the origins of this excitement how our perceptions of twins reflect our own longing for a perfect soul mate and the effect this personal projection has on the development in twins It is a book written with the general reader in mind rather than experts Twins share a deep psychic bond that forms the core of their twinship but they are never identical Many factors will affect their development including the early mutual resonances and sensate experiences between them and parental and societal attitudes in raising them
