## Discourse Perspectives On Hebrew Poetry In The Scriptures:

**Discourse Perspectives on Hebrew Poetry in the Scriptures** Ernst R. Wendland, 1994 **Past, Present, Future** Johannes Cornelis de Moor, Harry F. Van Rooy, 2000 The re writing of the history of Israel in the light of past failures and hopes for the future by Deuteronomistic historians and prophets is discussed in this series of studies In this volume the vitality of the Hebrew Scriptures is once again demonstrated Hebrew Poetry in the Bible Lynell Zogbo, Ernst R. Wendland, 2000 **God's Good Covenant** Loren F. Bliese, 2021-06-29 In this study of Hosea Loren Bliese documents his current research into how the poetics of the Hebrew Bible were enhanced by arranging the counts of words and structures in order to beautify the message The two words good and covenant are the only words that come once each in the five parts of the book They point to a structural theme of the book that God's covenant is good in contrast to idolatrous relationships that lead to disaster Hosea's symbolic numbers are derived from both twenty two of the Hebrew letters and from twenty six the value of the divine name YHWH along with other numbers related to the name Plays on the word repent or return have a build up of repetitions to the end where the plea Return Israel to the LORD your God is prominent Each of these words is marked by numeric significance The book is a discourse analysis of Hosea's whole text focusing on features of prominence including symbolic numbers The study analyzes thirty of the forty five poems in Hosea with the form of metrical chiasmus pointing to a central peak Bliese has developed this in previous writings Abundant chi square probability calculations support his analysis *Contributions of Selected Rhetorical Devices to a Biblical Theology of The Song of Songs* Mark McGinniss, 2011-03-07 Scan any Old Testament Theology for its entry concerning the Song of Songs and you are likely to put the book down and walk away disappointed In the majority of resources the Song is either missing entirely or is given scant pages that do not justice to its divine message In this book Mark McGinniss seeks to remedy that situation by demonstrating the depth of theology in this ancient love song concerning desire passion and sex Beyond the significant theology of the Song this book demonstrates how the author of the Song of Songs employed certain literary devices for a specific rhetorical purpose to convey certain theological truths **Nahum** Duane L. Christensen, 2009-01-01 The Anchor Yale Bible is a fresh approach to the world's greatest classic Its object is to make the Bible accessible to the modern reader its method is to arrive at the meaning of biblical literature through exact translation and extended exposition and to reconstruct the ancient setting of the biblical story as well as the circumstances of its transcription and the characteristics of its transcribers It is a project of international and interfaith scope Protestant Catholic and Jewish scholars from many countries contribute individual volumes and is an effort to make available all the significant historical and linguistic knowledge which bears on the interpretation of the biblical record It is aimed at the general reader with no special formal training in biblical studies yet it is written with the most exacting standards of scholarship reflecting the highest technical accomplishment Vol 1 p ii **Count God In** Loren F. Bliese, 2018-03-09 This study of Song of Songs uncovers many patterns related to the numerical value

twenty six and related numbers for the divine name YHWH Patterns are so unique that they clearly show authorial intent They involve the numerical value of root forms of words their sequences and their totals in the book The beloved man is highlighted by special patterns which indicate that a typology for God is intended Deer names in the refrain have number patterns that confirm intention for being circumlocutions for divine names The disputed presence of the divine name YH in 8 6 is confirmed by the value of its full word One of the most striking patterns found with the help of a computer is that the totals of root words are all arranged to point to theological numbers in a beautiful intricacy Besides describing these patterns this study discusses numerical competence within a proposed Hebrew literary circle and what steps they might have gone through to create these amazing phenomena These theological numbers confirm intentionality for allusions to the Hebrew Bible and support a hermeneutic of spiritual applications A literary analysis of each poem focuses on the use of numbers among other features of prominence

**Finding Beauty in the Bible** Robert D. Miller II, OFS,2023-08-31 We approach Raphael s Agony in the Garden or Fra Angelico s Crucifixion for their beauty and not primarily to learn about fifteenth century fashion or even to decode the iconography Yet the many books on the Song of Songs whether they try to read the book as an ancient Near Eastern love song or a Christian allegory miss the main point of this book its aesthetic elements Aesthetics is the appreciation of beauty Aesthetics examines literary form as a response to content the way poetics works with contents the use of loaded semantic terms even the sound created by words and what cognitive science tells us it does to listeners This book uses the commentary format to accompany an individual s reading of the Song of Songs focusing on these neglected aspects of the text It both reads the book as it is meant to be read and opens up a new vista on this magnificent biblical text

*Evoking Story for Transformation* Lyn Nixon,2025-08-21 Lyn Nixon takes a fresh approach to the question of

whether New Testament authors quote the Old Testament without regard to the original Old Testament meaning that is out of context Her action model uses Speech Act Theory to examine the way authors and readers together contribute to the communication of meaning In her model for meaning to be successfully communicated the reader must experience the transformation intended by the author Lyn Nixon applies her theoretical model to two examples of New Testament quotation where previous scholars have claimed the author quotes the Old Testament in a way that does not correspond to the original meaning Her case studies the use of Ps 115 1 LXX in 2 Cor 4 13 and of Ps 110 1 MT by various New Testament speakers and authors provide new insights into ways that the Old Testament meaning including its transformative intention resonates in the quoting of New Testament texts

**Let Me See Your Form** Phillip D. Roberts, 2007-03-09 This study tackles the problem of the Song of Songs structure by beginning at the bottom the microstructure of the Song rather than at the top By employing a new type of rhetorical method Professor Roberts defines each of the minimal structural units of the Song by identifying the formal poetic features that mark its opening and closing coupled with the poetic features that create cohesion within it Moving up the Song's structural ladder larger units are identified with the same technique While this study does not identify an overall structure it does demonstrate how recognition of these formal structuring devices can help the interpreter define the structural units of the Song with far greater precision The final chapter presents a catalog of these formal poetic features that typically mark the opening and closure of structural units in the Song as well as those that effect cohesion Within is a catalog that can be refined and enlarged by application of the same method to other poetic texts Other exegetical insights abound Professor Roberts demonstrates a more highly structured pattern of the wasfs than has been recognized heretofore and proposes a new interpretation of the adjuration refrain He identifies a type of phonological anacrusis employed numerous times in the Song and addresses almost every text critical issue in the Song many of which are resolved by attention to poetic structuring devices

Comparative Discourse Analysis and the Translation of Psalm 22 in Chichewa, a Bantu Language of South-central Africa Ernst R. Wendland, 1993 This study illustrates a comprehensive method of analyzing the discourse structure and style of a Hebrew lyric text with special reference to its interacting thematic organization and rhetorical dynamics An illustrated survey of 10 of the principal stylistic features leads to a discussion of similar rhetorical techniques manifested by modern lyric written poetry in Chichewa The study also seeks to make a contribution to the theory and practice of meaning oriented Bible translation

*Ecclesiastes & the Song of Songs* Daniel C. Fredericks, Daniel J. Estes, 2010-03-23 The Bible is both a divine and a human book It is the inspired word of God for his people whether in biblical times or for the church today It is also a fully human book written by different people in a variety of cultural settings Knowledge of biblical language and society is essential if the meaning of the human writer is to be grasped fully The Apollos Old Testament Commentary aims to take with equal seriousness the divine and human aspects of

Scripture It expounds the book of the Old Testament in a scholarly manner accessible to non experts and shows the relevance of the Old Testament to modern readers Written by an international team of scholars The commentaries are intended primarily to serve the needs of those who preach from the Old Testament They are equally suitable for use by scholars and all serious students of the Bible Each commentary begins with an Introduction which gives an overview of the issues of date authorship sources and so on but which also outlines more fully than usual the theology of the book and provides pointers towards its interpretation and contemporary application The annotated Translation of the Hebrew text by the author forms the basis for the subsequent commentary The Form and Structure section examines the context of the passage its use of theoretical devices and source and form critical issues The Comment section is a through detailed exegesis of the historical and theological meaning of the passage The Explanation the goal of the commentary offers a fully exposition of the theological message within the framework of biblical theology and a commitment to the inspiration and authority of the Old Testament Book jacket

**Word-order Variation in Biblical Hebrew Poetry** Nicholas P. Lunn, 2006 This study tackles the neglected subject of word order in biblical Hebrew poetry The fact that the order of clause constituents frequently differs from that found in prose has often been noted but no systematic attempt has been offered by way of explanation Here two separate factors are taken into consideration that of purely poetic variation defamiliarisation and that of pragmatic markedness This work offers a new approach to the poetry of the Old Testament that will aid towards more accurate translation exegesis and discourse analysis of poetic texts
