

Two lines of UK research into classroom talk

- **Linguistic ethnographers ask:**

- How does classroom discourse enable, or inhibit, the expression of identities?
- How are the languages/language varieties of different cultures recognized and used in schools?
- Is current educational policy sensitive to the linguistic and cultural needs of schoolchildren?

- **Sociocultural researchers ask:**

- What kinds of dialogue are most helpful for teaching and learning?
- Does collaborative activity help children to learn?
- How can research be used to change educational practice for the better?

Discourse And The Two Cultures:

Discourse and the Two Cultures, 1988 The Handbook of Intercultural Discourse and Communication Christina Bratt Paulston, Scott F. Kiesling, Elizabeth S. Rangel, 2014-09-15 The Handbook of Intercultural Discourse and Communication Intercultural discourse and communication is emerging as an important area of research in a highly globalized and connected world where language and culture contact is frequent and cultural misunderstandings and misconceptions abound The handbook contains contributions from established scholars and up and coming researchers from a range of subfields to survey the theoretical perspectives and applied work in this burgeoning area of linguistics This timely volume features first a part that introduces the background detailing the scope and topics of the field followed by one that describes four different theoretical approaches and their basic research questions from Ethnography of Speaking and John Gumperz's Interactional Sociolinguistics to Critical Approaches and Postmodernism The third part Interactional Discourse Features describes and explains the features of talk that are frequently studied in cross cultural research such as turn taking and politeness The volume also includes a section on Interactional Discourse sites examining cross cultural communication such as Greek Turkish discourse The final part considers a variety of domains in which interaction takes place such as Translation Business Law Medicine Education and Religion

Dance Between Two Cultures William Luis, 2001 Offers insights on Latino Caribbean writers born or raised in the United States who are at the vanguard of a literary movement that has captured both critical and popular interest In this groundbreaking study William Luis analyzes the most salient and representative narrative and poetic works of the newest literary movement to emerge in Spanish American and U S literatures The book is divided into three sections each focused on representative Puerto Rican American Cuban American and Dominican American authors Luis traces the writers origins and influences from the nineteenth century to the present focusing especially on the contemporary works of Oscar Hijuelos Julia Alvarez Cristina Garcia and Piri Thomas among others While engaging in close readings of the texts Luis places them in a broader social historical political and racial perspective to expose the tension between text and context As a group Latino Caribbeans write an ethnic literature in English that is born of their struggle to forge an identity separate from both the influences of their parents culture and those of the United States For these writers their parents country of origin is a distant memory They have developed a culture of resistance and a language that mediates between their parents identity and the culture that they themselves live in Latino Caribbeans are engaged in a metaphorical dance with Anglo Americans as the dominant culture Just as that dance represents a coming together of separate influences to make a unique art form so do both Hispanic and North American cultures combine to bring a new literature into being This new body of literature helps us to understand not only the adjustments Latino Caribbean cultures have had to make within the larger U S environment but also how the dominant culture has been affected by their presence Cultural and Social Division in Contemporary Japan Yoshikazu Shiobara, Kohei Kawabata, Joel Matthews, 2019-07-30 The recent

manifestation of exclusionism in Japan has emerged at a time of intensified neoliberal economic policies increased cross border migration brought on by globalization the elevated threat of global terrorism heightened tensions between East Asian states over historical and territorial conflicts and a backlash by Japanese conservatives over perceived historical apologism The social and political environment for minorities in Japan has shifted drastically since the 1990s yet many studies of Japan still tend to view Japan through the dominant discourses of ethnic homogeneity *tanitsu minzoku shakai* and middle class society *so churyu shakai* which positions the exclusion of minorities as an exceptional phenomenon While exclusionism has been recognized as a serious threat to minority groups it has not often been considered a representative issue for the whole of Japanese society This tendency will persist until the discourses of *tanitsu minzoku shakai* and *so churyu shakai* are systematically debunked and Japan is widely recognized as both multiethnic and socio economically stratified Today as with most advanced capitalist countries serious social divides occasioned by the impacts of globalization and neoliberalism have destabilized Japanese society This book explores not only how Japanese society is diversified and unequal but also how diversity and inequality have caused people to divide into separate realities from which conflict and violence have emerged It empirically examines the current situation while considering the historical development of exclusionism from the interdisciplinary viewpoints of history policy studies cultural studies sociology and cultural anthropology In addition to analyzing the realities of division and exclusionism the authors propose theoretical alternatives to overcome such cultural and social divides

The Space of Culture Sebastian Luft, 2015 Sebastian Luft presents and defends the philosophy of culture championed by the Marburg School of Neo Kantianism Following a historical trajectory from Hermann Cohen to Paul Natorp and through to Ernst Cassirer this book makes a systematic case for the viability and attractiveness of a philosophical culture in a transcendental vein in the manner in which the Marburgers intended to broaden Kant's approach In providing a philosophical study of culture Luft adheres to important Kantian tenets while addressing empirical studies of culture The Space of Culture culminates in an exploration of Cassirer's Philosophy of Symbolic Forms and argues for the extent to which Cassirer's thought was firmly rooted in the Marburg School despite his originality At the same time it shows how Cassirer opened up the philosophical study of culture to new horizons making it attractive for contemporary philosophy

Discourses We Live By: Narratives of Educational and Social Endeavour Hazel R. Wright, Marianne Høyen, 2020-07-03

What are the influences that govern how people view their worlds? What are the embedded values and practices that underpin the ways people think and act? *Discourses We Live By* approaches these questions through narrative research in a process that uses words, images, activities or artefacts to ask people either individually or collectively within social groupings to examine, discuss, portray or otherwise make public their place in the world, their sense of belonging to and identity within the physical and cultural space they inhabit. This book is a rich and multifaceted collection of twenty-eight chapters that use varied lenses to examine the discourses that shape people's lives. The contributors are themselves from many backgrounds, different academic disciplines within the humanities and social sciences, diverse professional practices and a range of countries and cultures. They represent a broad spectrum of age, status and outlook and variously apply their research methods but share a common interest in people, their lives, thoughts and actions. Gathering such eclectic experiences as those of student teachers in Kenya, a released prisoner in Denmark, academics in Colombia, a group of migrants learning English and gambling addiction support workers in Italy, alongside more mainstream educational themes, the book presents a fascinating array of insights. *Discourses We Live By* will be essential reading for adult educators and practitioners, those involved with educational and professional practice, narrative researchers and many sociologists. It will appeal to all who want to know how narratives shape the way we live and the way we talk about our lives.

A Cloud Across the Pacific Thomas A. Metzger, 2005. This book uncovers the basic contradictions between contemporary China's complex ideological marketplace and Western liberalism. It describes and puts into critical context three versions of Western liberalism: those of F. A. Hayek, John Rawls and John Dunn; three versions of Chinese liberalism: those of Yang Kuo-shu, Li Qiang and Ambrose Y. C. King; two versions of modern Confucian humanism: those of Tang Ch'ni and Henry K. H. Woo; and various versions of Chinese Marxism, including Kao Li-k'o's in the early 1990s and some of the recent New Left writings. It shows that all these Chinese political theories, not only Chinese Marxism, depend on a number of premises at odds with Western liberalism, especially epistemological optimism and an extravagantly optimistic concept of political practicability. It also argues that not only these Chinese theories but also Western liberalism have failed to offer adequate normative guidelines for the improvement of political life. This study combines a deep understanding of the history of Chinese thought with a strong grasp of modern philosophical trends and an innovative methodology for the description and criticism of political theories. It will be useful to students of modern Chinese intellectual history, political philosophy, political culture, the comparative study of cultures and of U.S.-Chinese relations.
