Disequilibrium Growth Theory An Application Of The Filippov Solution To Economics:

Disequilibrium Growth Theory Charles van Marrewijk, Jos Verbeek, 1993 Static disequilibrium economic theory fails to analyse the dynamic effects of market disequilibrium whereas standard growth theory always assumes markets to be in equilibrium Both shortcomings can be overcome by disequilibrium growth theory A problem arises however because different short term disequilibrium regimes give rise to differential equations The dynamic analysis therefore has to take into consideration the possibility of regime switching Various solutions have been put forward for this problem but they generally do not give unique solutions The method developed by Filippov gives a unique solution that coincides with the classical solution to differential equations in the interior of the regimes This approach has been used in several papers in the past decade This book seeks to fill the gap in the literature on what has been achieved so far *Privatization, Deregulation, and the Macroeconomy* Peter A. G. van Bergeijk, Robert C. G. Haffner, 1996 This volume focuses on the macroeconomic consequences of microeconomic rigidity in the markets for goods or services and the reforms necessary to create economic dynamism The Netherlands Germany New Zealand and Australia are used as examples to show how *Bibliographie der Staats-und Wirtschaftswissenschaften*, 1993 **Business Cycle Dynamics and Stabilization Policies** Hajime Hori, 2017-05-09 This monograph is devoted to the analysis of the dynamics of business cycles and stabilization policies The analysis is conducted in models of the AS AD type focusing on involuntary unemployment and capital accumulation Major conclusions are the following 1 Sectoral imbalances once emphasized by such business cycle theorists as K Marx A Spiethoff and F A Hayek are rectified in finite time by competitive investment allocation leaving aggregate variables as the main variables of business cycle dynamics 2 The chronology of events during a cycle is established which resolves the so called real wage puzzle 3 Owing to the crowding out effect on investment fiscal stabilization policies can destabilize the business cycle dynamics if implemented too intensively 4 If coordinated properly monetary stabilization policies can remove the destabilizing tendency of fiscal stabilization policies *Bibliographie der Wirtschaftswissenschaften*, 1994 The British National Bibliography Arthur James Wells, 1993 **Economica**, 1994 **Disequilibrium Growth Theory in an International Perspective** Charles van Marrewijk, Jos Verbeek, 1991 *Economics Letters*, 1982 **Recent Approaches to Economic Dynamics** Peter Flaschel, 1988 Proceedings of the Conference on Dynamic Economic Theory held Oct 7 9 1987 at the University of Bielefeld TEN YEARS OF ECONOMICS LETTERS JERRY GREEN, *The French Economy* Jacques Melitz, Charles Wyplosz, 2022-03-23 This volume brings together the proceedings of a conference held at the Institut Europeen d Administration des Affaires INSEAD at Fontainebleau on July 5 6 and 7 1982 Summer conferences abound in the Paris region That it was possible to attract an imposing international cast of economists within walking distance of the historic castle of Fontainebleau and one hour away from central Paris by car during the month of July is nothing especially surprising But in this case there was a particular motivation for choosing the French site Journal of Economic Literature
