*Teaching Poetry in a Digital World* Stefani Boutelier, Sarah J. Donovan, 2025-04-30 Teaching Poetry in a Digital World supports English language arts ELA educators for grades 6-12 to incorporate digital literacy in their classrooms by teaching the reading and writing of poetry. In an increasingly digital age, educators must adapt to meet the changing needs and interests of their students by incorporating technology into the classroom. This book introduces its audience to the ePoetry Framework. This framework demonstrates how poetry might present itself in a literacy-based unit with the benefit of a technology medium to share with the world. Examples include teaching zip code poetry incorporating haiku with the creation of GIFs and ethically discussing AI with sonnet poems. With adaptable lesson plans and assessments as well as educator examples, the book will inspire teachers to create intentional student-centered ePoetry units. The book is aligned with ELA literacy standards, International Society for Technology in Education (ISTE) educator standards, and National Council of Teachers of English (NCTE)'s position statement for integrating technology into ELA classrooms. It is a key resource for secondary school educators teaching ELA creative writing and digital media. [The Success Myth](#) Emma

Now she has worked out a way to do things differently, and here Emma shares her hard-won lessons, including how to set goals that are ambitious but not overwhelming, why the tick-box moments in life often feel anticlimactic, and how to break free from comparison and the endless pursuit of more.
