*Soft Skills for Kids* Nancy Armstrong Melser, 2022-05-11 Children today are going through a lot they are busy with school involved in extracurricular activities and trying to navigate the world of COVID and other concerns Teachers and parents are busy too with work school and parenting activities How will they have the time to teach valuable skills such as manners and respect to children These are soft skills the skills necessary to work with others and be a respected and valuable citizen in the workplace of tomorrow *Soft Skills for Kids In Schools at Home and Online* 2nd Edition focuses on ways that teachers and parents can work together to teach soft skills to the children in their lives This book is not a curriculum program or set of lessons to help children but rather a series of teachable moments in which adults teach strategies to children as they happen Finally as the education of children has changed recently due to the pandemic with an increased number of children learning online this book will be a great resource for how adults can work together to help children learn soft skills in schools at home and online

*YOUTH CARE KNOWLEDGE EXCHANGE THROUGH ONLINE SIMULATION GAMING* Roelof Petrus Hortulanus, 2014 Youth care

multi disciplinary networks need flexible interactive and attractive tools and methods for knowledge exchange in view of timely effective and durable help in complex parenting problem situations Social media virtuality simulation and gaming gain an increasing significance in the way people share information learn and organize themselves This leads to the question whether youth care practice is ready to adopt some online practicalities for network exchange This design study describes model development and model appreciation of online role play simulation gaming as a time pace and place independent way to share expertise information and knowledge among the actors in youth care practice The results show that youth care professionals think that simulation gaming is relevant and convenient to unravel difficult issues to elaborate network strategies and to jointly reflect on intervention The research is unique in domains of youth care intervention and in game theory The singularity of contexts and actors is taken as starting point in a cross over of game design and behavioral science Online role play simulation gaming leads to a better understanding of complexity in youth care situations and to a greater awareness of network capacities and capabilities and helps to establish accountability of choices of intervention
