acquired and how educational processes may be optimally designed in a new age of teaching and learning Features Benefits  
Part I provides an overview and includes discussion of the unique structural aspects of the electronic learning environment  
pedagogical issues curriculum design psychological and group dynamics and ethical issues Part II examines practical issues  
associated with implementing courses online both in the traditional university setting and in professional corporate training  
environments The book draws heavily on personal case examples many from The Fielding Graduate Institute s 26 years of  
teaching in nontraditional distributed learning environments      *Management* John R. Schermerhorn, 2006 8th ed update has
