Discipline and Critique Andrew Cutrofello, 1994-01-01 Andrew Cutrofello demonstrates that in light of Michel Foucault s genealogical criticisms of the juridical model of power it is possible to develop a postjuridical model of Kantian critique Recasting game theory s celebrated prisoner s dilemma in Foucauldian terms Cutrofello illuminates the techniques of mutual betrayal that train bodies to reason themselves into complicity with forces of subjugation He shows how a genealogically reformulated version of Kantian ethics can provide the basic parameters of a discipline of resistance to such forces and he argues for a more nuanced assessment of the stakes involved in the demise of philosophy as a disciplinary formation Along the way Cutrofello presents fascinating readings of Kant's own care of the self ethic drawing on the conceptual resources of Gilles Deleuze Jacques Lacan and Luce Irigaray This tour de force will prompt social theorists to reconsider the way power functions in our modern postmodern world **Discipline and Critique** Andrew Cutrofello, 1994-02-03 Andrew Cutrofello demonstrates that in light of Michel Foucault's genealogical criticisms of the juridical model of power it is possible to develop a postjuridical model of Kantian critique Recasting game theory s celebrated prisoner s dilemma in Foucauldian terms Cutrofello illuminates the techniques of mutual betrayal that train bodies to reason themselves into complicity with forces of subjugation He shows how a genealogically reformulated version of Kantian ethics can provide the basic parameters of a discipline of resistance to such forces and he argues for a more nuanced assessment of the stakes involved in the demise of philosophy as a disciplinary formation Along the way Cutrofello presents fascinating readings of Kant's own care of the self ethic drawing on the conceptual resources of Gilles Deleuze Jacques Lacan and Luce Irigaray This tour de force will prompt social theorists to reconsider the way power functions in our modern postmodern world Unsettling Food Politics Christopher Mayes, 2018-10-16 Over the past 25 years activists farmers and scholars have been arguing that the industrialized global food system erodes democracy perpetuates injustices undermines population health and is environmentally unsustainable In an attempt to resist these effects activists have proposed alternative food networks that draw on ideas and practices from pre industrial agrarian smallholder farming as well as contemporary peasant movements This book uses current debates over Michel Foucault's method of genealogy as a practice of critique and historical problematization of the present to reveal the historical constitution of contemporary alternative food discourses While alternative food activists appeal to food sovereignty and agrarian discourses to counter the influence of neoliberal agricultural policies these discourses remain entangled with colonial logics In particular the influence of Enlightenment ideas of improvement colonial practices of agriculture as a means to establish ownership and anthropocentric relations to the land In combination with the genealogical analysis this book brings continental political philosophy into conversation with Indigenous theories of sovereignty and alternative food discourse in order to open new spaces for thinking about food and politics in contemporary Australia Foucault's Askesis Edward F. McGushin, 2007-04-03 In his renowned courses at the

Coll ge de France from 1982 to 1984 Michel Foucault devoted his lectures to meticulous readings and interpretations of the works of Plato Epictetus Seneca and Marcus Aurelius among others In this his aim was not Edward F McGushin contends to develop a new knowledge of the history of philosophy rather it was to let himself be transformed by the very activity of thinking Thus this work shows us Foucault in the last phase of his life in the act of becoming a philosopher Here we see how his encounter with ancient philosophy allowed him to experience the practice of philosophy as to paraphrase Nietzsche a way of becoming who one is the work of self formation that the Greeks called ask sis Through a detailed study of Foucault s last courses McGushin demonstrates that this new way of practicing philosophical ask sis evokes Foucault's ethical resistance to modern relations of power and knowledge In order to understand Foucault's later project then it is necessary to see it within the context of his earlier work If his earlier projects represented an attempt to bring to light the relations of power and knowledge that narrowed and limited freedom then this last project represents his effort to take back that freedom by redefining it in terms of care of the self Foucault always stressed that modern power functions by producing individual subjects This book shows how his excavation of ancient philosophical practices gave him the tools to counter this function The Owl at Dawn Andrew Cutrofello, Georg Wilhelm Friedrich with a practice of self formation an ask sis Hegel, 1995-08-03 A present day continuation of the philosophical narrative presented in G W F Hegel's Phenomenology of Spirit that confronts every major post Hegelian philosophical position and arrives at an original reconception of the purpose of dialectical phenomenology After the Globe, Before the World RBJ Walker, 2010-04-05 This book explores the implications of claims that the most challenging political problems of our time express an urgent need to reimagine where and therefore what we take politics to be It does so by examining the relationship between modern forms of politics centred simultaneously within individual subjects sovereign states and an international system of states and the natural God given or premodern world that has been excluded in order to construct modern forms of political subjectivity and sovereign authority It argues that the ever present possibility of a world outside the international both sustains the structuring of relations between inclusion and exclusion within the modern internationalized political order and generates desires for escape from this order to a politics encompassing a singular humanity cosmopolis globe or planet that are doomed to disappointment On this basis the book develops a critique of prevailing traditions of both political theory and theories of international relations It especially examines what it might now mean to think about sovereignties subjectivities boundaries borders and limits without automatically reproducing forms of inclusion and exclusion or universality and particularity expressed in the converging but ultimately contradictory relationship between international relations and world politics **Journal of Nietzsche Studies** .1998 Michel Foucault and the Freedom of Thought Keith Alan Robinson, 2001 This volume offers a map of the underlying movements of Foucault's thought It demonstrates that Foucault is a philosopher of complex spaces territories and architectures of thought across the range of his work and includes analyses of lesser known texts Magritte Pierre Riviere

Brisset that are hardly mentioned in the secondary literature The primary sense direction and force of Foucault's thought is shown to reside in the connections established between a new conception of space time and freedom an open system of relations that shows how he thinks the present differently designating this effort the thought from Outside This is the freedom of thought in Foucault a potentially dangerous or joyful yet necessarily endless effort to connect and reconnect with the Outside that is uniquely Foucauldian Current Legal Theory, 1996 Masking the Abject Mechthild Nagel, 2002-04-19 Masking the Abject traces the beginnings of the malediction of play in Western metaphysics to Aristotle Mechthild Nagel's innovative study demonstrates how play has served as a castaway in western philosophical thinking It is considered to be repulsive and loathsome yet also fascinating and desirable The book illustrates how play succeeds and proliferates after Hegel despite its denunciation by classical philosophers entering Marxist phenomenological postmodern and feminist discourses This work provides the reader with a superb analysis of how the distinction between the serious and the playful has developed over time charting play s changing ontological status and ethical and aesthetic dimensions from the logocentric to the bacchnalian Symplokė, 1995 **Forthcoming Books** Rose Arny, 1994-02 International The Soul of Justice Cynthia Willett, 2001 Cynthia Willett brings together diverse insights Philosophical Quarterly, 1961 from social psychology classical and contemporary literature and legal and justice theory to redefine the basis of the moral and legal person Feminists communitarians and postmodern thinkers have made clear that classical liberalism with its emphasis on individual autonomy and excessive rationalism is severely limited Although she is sympathetic with the liberal view Willett finds it necessary to go further For her attention to the social dimensions of the family and civil society is critical if issues of race gender class and sexuality are to be taken seriously Interdependency not autonomy is of increasing significance in an era of globalization Willett proposes an alternate normative theory that recognizes the impact of social forces on individual well being Citizenship in a democracy should not be defined solely on the basis of rights to autonomy such as bare rights to property or free speech she explains Rather citizenship should be defined first of all in terms of the rights responsibilities and capacities of the social person It is within the African American tradition of political thought that Willett finds a more useful definition of human identity and political freedom The African American experience offers a compelling vision of social change and a deeper understanding of what it means to be a social person By focusing on everyday battles against racism Willett contends we can gain valuable insight into the meaning of justice Iournal of the History of Philosophy, 1994 The Cumulative Book Index ,1995 A world list of books in the English language Directory of American Scholars: Philosophy, religion and law ,1999 Kant-Studien Hans Vaihinger, Max Scheler, Bruno Bauch, Max Frischeisen-Köhler, Arthur Liebert, Paul Menzer, 1996 1904 26 includes lists of members
