Search of the Perfect Code Discovered Through Science L. A. Espriux,2017-08-09 The greater challenge of this book has been sorting through a conspiracy of biased data interpretation more than verification of the actual data It is as though the institutional foundation of academia has rigidly defined parameters of historically acceptable facts ignoring any evidence that does not fit within the target of measured agreement Not only are these several conclusions contrary to my personal experience but they border on absurdity in the open arena of logical discourse Therefore at the risk of sounding foolish to the world of secular thinking and sounding on the fringe to the minds of those most religious I have endeavored to remain true to my conscience through this intricate process of human analysis Even though I have explored the reasonable expectations constrained through many subjects of intellectual controversy I am kept in remembrance there is no greater meaning than love For by love the worlds are framed

Memory and Agency in Ancient China Francis Allard, Yan Sun, Kathryn M. Linduff, 2018-12-20 Memory and Agency in Ancient China offers a novel perspective on China's material culture The volume explores the complex life histories of selected objects whose trajectories as single objects biographies and object types lineages cut across both temporal and physical space The essays written by a team of international scholars analyse the objects in an effort to understand how they were shaped by the constraints of their social political and aesthetic contexts just as they were also guided by individual preference and capricious memory They also demonstrate how objects were capable of effecting change Ranging chronologically from the Neolithic to the present and spatially from northern to southern mainland China and Taiwan this book highlights the varied approaches that archaeologists and art historians use when attempting to reconstruct object trajectories It also showcases the challenges they face particularly with the unearthing of objects from archaeological contexts that paradoxically come to represent the earliest known point of their post recovery lives
