**First Market** Gary Arthur Thomson, 2010-02-08

For 4000 years the world s FIRST MARKET was forgotten along with Sumer the world s first civilization Recently discovered cuneiform receipts inscribed on clay tablets over 100 000 offer clues to the rediscovery of the world s first Wall Street private treaty stock market The CUNEIFORM CODE unlocks the secret of the first Wall Street Using a COBOL business computer program this book analyzes a very large sampling of these market receipts Spanning a century between 2111 and 2002 BCE the story follows the economic ups and downs of the five kings of the Ur III Dynasty of Sumer The story is well documented with the tablets and a glossary of Sumerian English words

**Karl Barth's Doctrine of Holy Scripture** Klaas Runia, 2018-11-27 Hardly any Christian doctrine is discussed so much today as that of Holy Scripture Innumerable books are published about it and official discussions in many churches are concerned with it Karl Barth s doctrine plays a great part whether positively or negatively in all of these discussions and reports His stature is so great that no one can deal with the problem of Holy Scripture without considering Barth s view and defining his own position over against it Indeed many aspects of Barth s view have come to be generally accepted as beyond criticism Such uncritical acceptance is itself a good

reason to devote a special study to Barth's doctrine of Holy Scripture because no matter how we assess it the Church Dogmatics of Karl Barth is one of the greatest forces in the modern theological world. In its vastness and variety its comprehensiveness and detail it constitutes a challenge to every school. Nor is it to be met by caricature or sweeping generalization. The individual themes demand searching analysis and appraisal at the exegetical, historical and dogmatic levels at which Barth himself develops them. Only on the basis of detailed treatment can there be ultimate understanding and assessment of the whole. It is because Dr Runia tackles this preliminary problem that his present work is so significant. He does not add to the list of general books. Choosing a critical and sensitive area he devotes himself to the concentrated task of presenting the Barthian teaching on inspiration in its normative form. In the course of his analysis he examines the proposed biblical basis of Barth's statement and brings it into lively interaction with the Reformation tradition which Barth believes that he represents. By means of a thorough inquiry into the single point Dr Runia thus gives us a far more informative, stimulating and authoritative criticism that is possible in more comprehensive studies. The result is a valuable work which deserves to be widely studied and which should serve as a model for similar investigations into the many detailed themes of the Dogmatics. It is characterized by an honesty and relevance which gives it more than a narrowly academic interest. The real problems are faced and it is candidly the most orthodox of statements. Yet the great verities of the traditional doctrine emerge the clearer and stronger for this powerful discussion and in such a way that they may again make their salutary impact on a wider theological front.

**Streams of Civilization** Christian Liberty Press, Mary Stanton, Albert

Hyma, 1999-05-03 This world history text provides a comprehensive overview of ancient history from Creation through the 1620s from a Christian perspective. Extensive vocabulary questions and suggested projects are listed throughout the text. The text is beautifully illustrated and contains numerous high quality maps in two color. Grade 9.

*First Writers—The Sumerians* Gary Arthur Thomson, 2011-11-04 Sumerians were the first people to write. Using a sharp three cornered stylus they wrote on clay small wedge shapes called cuneiform. With writing Sumerians turned the corner from prehistory to history. After at least two million years of humans telling stories the Sumerians introduced literacy. Most civilizations passed down their heritage through orally recited traditions stories were passed from one generation to another by word of mouth. The Sumerians were the first to write down their oral traditions. To make the historical record easier the Sumerians invented calendars with exact dates of events and contracts often corroborated by astronomy. Since Sumerian farmers invented irrigation and created a surplus other Sumerians could choose to specialize in law, education, architecture, engineering, marketing and politics all of which were accompanied by written records. Using the writings of the Sumerians and modern archaeology this book will trace the story of the Sumerians the world's first writers.

*Time Capsules* William E. Jarvis, 2015-10-05 Time capsules have been used for thousands of years to store for posterity a selection of objects thought to be representative of life at a particular time. Such vessels have the dual purpose of causing participants to ponder their own cultural era and think about

those to come This work is a cultural history of five thousand years of time capsules and other related time information transfer experiences It examines both the formal and the popular culture aspects of the time capsule from its roots in ancient Mesopotamian and Egyptian building foundation deposits to the present utilization of spacecraft probes and other extreme locations The deposits of 3000 BCE deliberately had no definite date and time to be opened in 1876 CE came the idea of target dated deposits Also discussed are how real time capsules work notional and archaeological time capsules the height of the time capsule s popularity from 1935 to 1982 the preservation of writings in time capsules keeping time in a perpetual futurescape and turn of the century hype surrounding millennium time capsules
