Beane has spent the last decade examining this unique bond in a variety of settings from warehouses to surgical suites. The Engaged Caregiver: How to Build a Performance-Driven Workforce to Reduce Burnout and Transform Care Joseph Cabral, Thomas H. Lee, Martin Wright, 2019-11-29. From the top experts on healthcare workforce engagement comes a vital road map to reduce the alarmingly high and fast-growing rate of staff burnout and to transform care. More than half of U.S. physicians and 40 percent of nurses experience one or more symptoms of burnout. This crisis poses a serious threat to our health systems, impacting not only the well-being of the caregiving workforce but also that of their patients. Written by a team of thought leaders with deep expertise in healthcare workforce engagement and cultural development, *The Engaged Caregiver* shows leaders, managers, and front-line providers how to recognize the early signs of burnout and turn it around; address staff more effectively to keep them engaged; build strong, reliable teams with a real sense of purpose; map their organization's core values and get everyone on board; create a positive culture that's cohesive, inclusive, and resilient; develop highly effective leadership and organizational systems; hire, engage, and manage talent strategically and successfully; promote diversity, equity, and inclusion in the workplace; leverage data to drive improvements throughout the organization. In this wide-ranging guide, healthcare professionals will learn how to identify, diagnose, address, and overcome caregiver burnout on a personal level as well as measure, develop, and implement strategies that improve the entire workplace culture. *The Engaged Caregiver* provides an actionable plan for creating a resilient work culture that empowers caregivers and gives them the support they need to fulfill the patient promise with every care experience every day.
