David Copperfields Beyond Imagination:

David Copperfield's Beyond Imagination David Copperfield, Janet Berliner, 1996 Eighteen tales of fantasy They range from Peter S Beagle's The Magician of Karakosk on a land where people have done away with bodies and live out of body to Robert Silverberg's Crossing to the Empire in which Byzantium appears periodically off Chicago for a few days and you can visit it

Nostalgia in Transition, 1780-1917 Linda Marilyn Austin, 2007 Referred to long ago as a disease of Swiss soldiers and Highland regiments far from home nostalgia became known in the 1920s as more of a fleeting rather than debilitating condition Yet what caused this shift in our collective understanding of the term In Nostalgia in Transition 1780-1917 Linda M Austin traces the development of nostalgia from a memory disorder in the eighteenth century to its modern formulation as a pleasant recreational distraction Offering a paradigm for and analysis of nostalgic memory as it operates in various attempts to reenact the past Austin explains both the early and the modern understanding of this phenomenon Beginning with an account of nostalgia's transformation from an acute form of melancholia and homesickness into elegiac expression and idyllic representation Austin goes on to examine an array of texts from poetic meditations on nostalgia in the first half of the nineteenth century to the popular adult souvenirs of childhood in the second half She shows how in novels by Hardy in elegies and lyrics by Arnold Tennyson and Emily Brontë in illustrations by Kate Greenaway and Helen Allingham and in late Victorian cultural histories of the cottage nostalgia acts as a collective rather than an individual reenactment of an invented rather than a remembered past or place For students and scholars interested in the Victorian era as well as in Romanticism and modernism Nostalgia in Transition provides a well rounded perspective on how and why our understanding of nostalgia has changed over time

Adultery in the Novel Tony Tanner, 2020-02-04 Originally published in 1979 Adultery is a dominant feature in chivalric literature it becomes a major concern in Shakespeare's last plays and it forms the central plot of novels from Anna Karenina to Couples Tony Tanner proposes that transgressions of the marriage contract take on a special significance in the bourgeois novels of the eighteenth and nineteenth centuries His interpretation begins with the general topic of adultery in literature and then zeroes in on three works Rousseau's La Nouvelle Héloïse Goethe's Die Wahlverwandtschaften and Flaubert's Madame Bovary His interpretation encompasses the role of women the structure of the family social mores and the history of sexuality
