Smith, David Smith, Irving Sandler, Mark Di

Suvero, Storm King Art Center, 1999 David Smith strove to create works of art that could be viewed without reverence or awe because they were in his words natural statements of peaceful pursuit Intrinsic to this hope was his conviction that sculpture belongs in the elements with sky and earth as its visible reference points The Fields of David Smith celebrates a three year exhibition in the expansive landscape of the Storm King Art Center in Mountainville New York The aim of the curators has been to recapture the experience of viewing Smith's work during his lifetime when it was deployed with care and exuberance in ever changing arrangements in his fields at Bolton Landing in the Adirondacks The book first re-creates the scene at Bolton Landing A moving essay by Smith's daughter Candida captures in the most personal and direct terms the man himself his struggles and delights and the intensity of his working life This is followed by a memoir by Irving Sandler and reminiscences by friends of the artist The text is accompanied by photographs by fellow artists and by Smith himself The balance of the book is a sumptuous album of the evolving Storm King exhibition featuring major works by Smith sent from collections all over the country Jerry L Thompson one of the foremost photographers of sculpture has captured Smith's work in summer and snow at sunrise and dusk glistening in the rain and presiding over the mists The interplay between the works and their surroundings and the effects of light on their surfaces provides a new lens through which to view the sculpture of David Smith With contributions by Mark di Suvero Helen Frankenthaler Anthony Caro Kenneth Noland and others Historical photography by David Smith Dan Budnik Alexander Liberman and others      **David Smith Invents** Susan Behrends Frank, David Smith, Sarah Hamill, Peter Stevens, 2011 Summary discusses selected steel sculptures fabricated by the American painter sculptor David Smith 1906-1965 as well as Smith's drawings and paintings Emphasizes his investigation of concave convex forms and notes his use of painted surfaces Includes essays on Smith's photography of his own works and on his surfaces and materials Provided by publisher      David Smith Sarah Hamill, 2011 Profoundly influenced by the welded sculptures of Julio Gonzalez and of Picasso David Smith devoted himself entirely to metal sculptures from steel and scrap material Almost single handedly Smith changed the nature of sculpture in America giving it a passion seriousness and an identity it did not previously possess With his vision courage and his exquisite aesthetic gifts he paved the way for Donald Judd Richard Serra and many other American sculptors who elaborated upon his formal and conceptual innovations and accepted his challenge to work and act in ways that would assure that sculpture and sculptors in America would be treated with respect Before Smith sculpture was a marginal activity after him it was an essential part of the American imagination Sarah Hamill selected the writings and the previously unpublished interview with poet Frank O'Hara and wrote the central essay about the artist drawing particular attention to the tradition of iron sculpture and the artist's vital relationship with photography 120 illustrations      **David Smith** Peter Stevens, Neil Wenman, Michelle White, 2016 For David Smith 1906-1965 widely considered one of the foremost American abstract expressionist sculptors of the 20th century there was no conceptual boundary between mediums Focusing on works from the late 1950s until the artist's untimely death in 1965 this oversized but

trim exhibition catalog charts the development of 21 stunning works couched among historic images culled from the artists archive The physical qualities of Smiths welded steel sculptures transmit a strong industrial presence but part of their impact and power derives from their gestural and tactile surfaces that give painting and drawing and sculpture the same visual impact and spatial weight Smith paved the way for such artists as John Chamberlain Mark di Suvero and Richard Serra by moving the site of sculptures construction from the 19th century confines of the artists atelier and fine art foundry into the expansive industrial context of the 20th century Essay by Menil Collection curator Michelle White *David Smith Sculpture* The Estate of David Smith, 2021 A monumental new work of scholarship on a luminary of twentieth century art I m not sure I have ever seen a catalogue raisonné as beautiful as magnificent as the new publication on the oeuvre of the great American sculptor David Smith Michael Fried Bookforum Embracing factory methods of construction building on the legacy of cubism and turning his back on European carving and casting traditions David Smith 1906 1965 transformed postwar sculpture His body of work contemporary with the New York School in painting and his pioneering placement of sculptures in a natural setting are foundational for present day sculpture and installation art This three volume boxed set comprehensively details the entirety of Smith s sculptural oeuvre It is now the definitive catalogue raisonné and supplants the one constructed by Rosalind E Krauss in 1977 With Christopher Lyon as editor and Susan J Cooke as research editor the volumes also contain a foreword by Rebecca and Candida Smith essays by Michael Brenson Sarah Hamill Marc Christian Roussel and Christopher Lyon and a chronology by Tracee Ng Reproductions of documents and images including many photographs paintings drawings and sketches by the artist offer insights into Smith s methods and creative thought Handsomely designed and illustrated with fine color reproductions this catalogue raisonné is both a sumptuous object and an essential scholarly resource Distributed for the Estate of David Smith *David Smith* David Smith, 1995 Catalogue of the American sculptor s New York exhibition David Smith Smith/Cooke, 2018 This comprehensive sourcebook is destined to become a lasting and definitive reference on the art and aesthetic philosophy of the American artist David Smith 1906 1965 A pioneer of twentieth century modernism Smith was renowned for the expansive formal and conceptual ambitions of his broadly diverse and inventive welded steel abstractions His groundbreaking achievements drew freely on cubism surrealism and constructivism profoundly influencing later movements such as minimalism and environmental art By radically challenging older conventions of monolithic figuration and refuting arbitrary distinctions between painters and sculptors Smith asserted sculpture s equal role in advancing modern art This compilation of Smith s poems sketchbook notes essays lectures letters to the editor reviews and interviews underscores the ways his writing articulated his private identity and promoted the social ideals that made him a key participant in contemporary discourses surrounding modernism art and politics and sculptural aesthetics Each text is annotated by Susan J Cooke with historical and contextual information that reflects Smith s process of continually reviewing and revising his writings in response to his evolving aspirations as a visual artist **David Smith** David Smith, Peter

Stevens,2007 This volume is a catalog published to accompany an exhibition of the works of American artist David Smith 1906 1965 Smith was best known as an Abstract Expressionist sculptor best known for creating large steel abstract geometric sculptures Much of Smith s work explores the fusion of drawing painting and sculpture This exhibition includes a rare series of intimate yet powerful paintings that have an experimental and free disposition Although each work is small in scale they individually hold an abundance of bold charisma Smith made the paintings in this exhibition over a four year period Each work was made on a sturdy precut piece of masonite board Viewing them as a group one is struck by their range of style and tone the charged tension in the varied relationships between surface and illusionary space and their function as both object and image Simultaneously intimate and powerfully direct these paintings are emblematic of Smith s belief that all art is experienced through our visual response to image
