The Last Cavalryman Harvey Ferguson, 2015-03-16 In this biography of Lucian K Truscott Jr author Harvey Ferguson tells the story of how Truscott despite his hardscrabble beginnings patchy education and questionable luck not only made the rank of army lieutenant general earning a reputation as one of World War II's most effective officers along the way but was also given an honorary promotion to four star general seven years after his retirement      **Precision and Purpose** Karl P. Mueller, 2015-07-08 Between March and October 2011 a coalition of North Atlantic Treaty Organization NATO member states and several partner nations waged a war against Muammar Qaddafi's Libyan regime that stemmed and then reversed the tide of Libya's civil war preventing Qaddafi from crushing the nascent rebel movement seeking to overthrow his dictatorship and going on to enable opposition forces to prevail The central element of this intervention was a relatively small multinational force's air campaign operating from NATO bases in several countries as well as from a handful of aircraft carriers and amphibious ships in the Mediterranean Sea The study details each country's contribution to that air campaign examining such issues as the limits of airpower and coordination among nations It also explores whether the Libyan experience offers a potential model for the future      Munsey's Weekly, 1925      **No Direction Home** James Baddock, 2019-06-05 It is the twenty second century Chris Vinter awakes aboard a UN starship on its way to Delta Pavonis carrying two thousand colonists to a new planet fleeing from an Earth on the brink of nuclear war They are barely a quarter of the way into their journey and now as the senior UN Security Officer he has been awoken from cryogenic sleep to deal with an emergency that threatens everybody on board All is not as it seems to be however within days there is a coup and Vinter finds himself forced to work for one of the power blocs the starship was trying to escape from as the only way of protecting the colonists in the cryosleep chambers He also discovers that someone has been tampering with his memories of Earth and far more than that He has been Augmented gene engineered as a semi cyborg warrior programmed to kill on demand the first of his kind He cannot trust his memory nor can he control his reflexes or even his allegiances but he is faced with the task of preventing Mankind's last war in the depths of interstellar space How is he to achieve this when the only people who can help him know that he could turn against them at any moment      Eagles Overhead Matt Dietz, 2023-02-15 US Air Force Forward Air Controllers FACs bridge the gap between air and land power They operate in the grey area of the battlefield serving as an aircrew who flies above the battlefield spots the enemy and relays targeting information to control

close air support attacks by other faster aircraft When done well Air Force FACs are the fulcrum for successful employment of air power in support of ground forces Unfortunately FACs in recent times have been shunned by both ground and air forces their mission complicated by inherent difficulty and danger as well as by the vicissitudes of defense budgets technology leadership bureaucracy and doctrine *Eagles Overhead* is the first complete historical survey of the US Air Force FAC program from its origins in World War I to the modern battlefield Matt Dietz examines their role status and performance in every US Air Force air campaign from the Marne in 1918 World War II Korea Vietnam Desert Storm and finally Mosul in 2017 With the remaking of the post Vietnam US military and the impact of those changes on FAC the Air Force began a steady neglect of the FAC mission from Operation Desert Storm through the force reductions after the Soviet Union's collapse and into the post 9 11 wars in Iraq and Afghanistan *Eagles Overhead* asks why FACs have not been heavily used on US battlefields since 2001 despite their warfighting importance Dietz examines the Air Force FAC's theoretical doctrinal institutional and historical frameworks to assess if the nature of air warfare has changed so significantly that the concept and utility of the FAC has been left behind From these examinations *Eagles Overhead* draws conclusions about the potential future of Air Force FACs
