*Youth Working with Girls and Women in Community Settings* Janet Batsleer, 2017-03-02 This fully revised and expanded edition of Janet Batsleer's 1996 *Working with Girls and Young Women in Community Settings* provides a significantly updated text incorporating new research which will serve practitioners and academics well into the twenty first century. Youth work with girls and young women has taken inspiration from feminisms and THE women's movement focussing on the strength and potential of girls as beings in their own right rather than as carriers of social problems. Autonomous community based projects can affirm young women's lives and creativity and seek to challenge oppression. Addressing the significant shifts in the social political and professional context for informal education this book makes clear the continuities in community based informal education with girls and argues for its continuing importance. The impact of neo liberal approaches to empowerment is highlighted throughout. Drawing together historical theoretical and practice based work including case studies from a range of projects Batsleer offers an analysis of the significant issues that will affect practice in the future and the significance of feminist inspired informal education rooted in specific community contexts. These include The impact of violence coercion and resistance across a range of practices. Female sexuality as a contested space. The impact of poverty and the creation of networks of care and mutual support. Difference and cross cultural work including inter faith work and practice which challenges racism. This is an important source book for youth workers social workers and others involved in education outside of school as well as researchers in the practice and politics of youth work. It is an essential reference tool for researchers as well as for both lecturers and students involved in the education and continuing professional development of youth and community workers and for those who wish to keep alive a radical alternative.

**Transforming Youth Justice** Anna Souhami, 2012-12-06 In 1997 the newly modernized Labour party swept into power promising a radical overhaul of the youth justice system. The creation of inter agency Youth Offending Teams YOTs for the delivery of youth justice services were the cornerstone of the new approach. These new YOTs were designed to tackle an excuse culture that was alleged to pervade the youth justice system and aimed to encourage the emergence of a shared culture among youth justice practitioners from different agencies. The transformation of the youth justice system brought about a period of intense disruption for the practitioners working within it. The nature and purpose of contemporary youth justice work was called into question and wider issues of occupational identity and culture became of crucial importance. Through a detailed ethnographic study of the formation of a YOT this book explores a previously neglected area of organisational cultures in criminal justice. It examines the nature of occupational culture and professional identity through the lived experience of youth justice professionals in this time of transition and change. It shows how profound and complex the effects of organisational change are and the fundamental challenges it raises for practitioners' sense of professional

identity and vocation Transforming Youth Justice makes a highly significant contribution not only to the way that professional cultures are understood in criminal justice but to an understanding of the often dissonant relationship between policy and practice

**Adolescent Forensic Psychiatry** Susan Bailey, Mairead Dolan, 2004-06-25 Adolescent Forensic Psychiatry discusses a broad range of issues based around the psychiatric needs of adolescents and how these relate to offending behaviour Its well structured approach looks at assessment treatment and outcomes for different disorders and highlights the importance of effective interaction between specialist agencies Services
