Armstrong's Handbook of Human Resource Management Practice Michael Armstrong, Stephen Taylor, 2023-01-03

Armstrong's Handbook of Human Resource Management Practice is the definitive resource for HRM students and professionals helping readers understand and implement HR to align with business needs. This book provides detailed coverage of all areas essential to the HR function such as employment law, employee relations, learning and development, performance management, and reward management. It also covers the HR skills needed to ensure professional success including leadership, managing conflict, interviewing, and using statistics. It is illustrated throughout in full colour and has a range of pedagogical features to consolidate learning such as source review boxes, key learning points, and case studies from international organizations such as IBM, HSBC, and Johnson and Johnson. This fully updated 16th edition includes new chapters on managing remote workers and developments in digital human resource management practices. There are also updates to reflect the changes throughout the HR function such as performance leadership, smart reward, and employee wellbeing. Armstrong's Handbook of Human Resource Management Practice is suited to both professionals and students of undergraduate and postgraduate degrees. It is also aligned with the Chartered Institute of Personnel and Development (CIPD) profession map so can be used by those studying the Associate Level 5 and Advanced Level 7 qualifications. Online supporting resources include comprehensive handbooks for lecturers and students, lecture slides, all figures and tables, toolkits, and a literature review, glossary, and bibliography.

Handbook of Research on the Future of the Maritime Industry Senbursa, Nihan, 2022-03-25. During the COVID-19 pandemic, employees of maritime and logistics sectors have continued their activities both on shore and on board to complete operations and supply continuity of logistics management in hard times. While organizations worked to provide the best services to customers, the shipping industry suffered by the work-life changes brought by the pandemic. Changes have been felt in talent management, new shipping, changing maritime ethics, and affecting the maritime industry psychology, employee motivation, importance of seafarers, and employee rights and responsibilities. The Handbook of Research on the Future of the Maritime Industry presents leaders and managers from maritime and logistics industries sharing their experiences, new paradigms, practices, and strategies. This book provides practical ideas and strategies to cope with the consequences of the new normal in the wake of the global pandemic crisis. Covering topics such as employee rights, occupational safety, and psychological effects, this book is an essential resource for senior executives, leaders, and managers, HR professionals, lecturers, business clusters, entrepreneurs, researchers, scholars, academicians, and faculty of higher education.

Informal Workplace Learning and Employee Development Malgorzata Rozkwitalska-Welenc, Beata A. Basinska, Alicja Dettlaff, 2024-06-03. The new paradigm in employee development assumes that employees should proactively direct their learning and growth. Most workplace learning is basically informal and occurs through daily work routines, peer-to-peer interactions, and networking, and typically brings about significant positive

outcomes to both individuals and organizations Yet workplace learning always occurs in a predefined context and this context has recently changed Hereafter many people have been delegated to work from home or any other remote location Many employees would like to maintain remote or hybrid work design in the future as well In this research monograph the authors explore an unexplored topic in social science research concerning proactive employee development through informal learning in new ways of working NWW The monograph will be of interest to students and researchers in organizational studies organizational behavior organizational psychology and organizational learning as well as human resource professionals concerned with employee development and the changing nature of work

Living Tomorrow-- an Inquiry Into the Preparation of Young People for Working Life in Europe Yves Deforge, 1981

Agency, Change and Learning Julian Randall, Bernard Burnes, 2023-12-05 Despite the plethora of books on change there appears a notable gap in the field rarely is the authentic and candid voice of change agents heard How often do academics or practitioners candidly state what they actually do when they are faced with managing change in their own organisations or when they are called on in a consultancy capacity In this new book the editors bring together a diverse group of contributors who have worked as Internal Change Agents in organizations to divulge what they really do and think about change The authors draw on their own research work involving change agents and their change interventions and include current reflections on the post Covid world of work and the change required for achieving change interventions successfully Each contribution offers perspectives from real change programmes

in both the public and private sector offering a unique opportunity to move beyond theory and understand change in practice The book offers valuable insights for academics and students of organisational change and behaviour leadership and organisational development *Net Working* Rosemary L. Batt,2001 A study was made of the labor market issues facing professionals and employers in the new media industry an industry that combines elements of computing technology telecommunications and content to create products and services that can be used interactively by consumers and business owners The study was carried out through a Web based survey of members of five intermediary associations that serve workers in the industry The study focused on a group of highly accomplished professionals in New York City to identify lessons for success in a project oriented environment with highly complex skill demands and rapidly changing technology The study found that the professionals surveyed earned an average of 99 000 from new media work in 1999 far more than the national average for people employed in this area Yet they faced significant challenges in acquiring new skills managing their careers and establishing employment and income security They spent an average of 13 5 hours per week in unpaid time learning new skills and more than 6 hours per week in looking for employment The researchers concluded that challenges for the industry include establishing criteria for evaluating job skills and creating ways for professionals to acquire more training and find jobs or projects in less time Research methodology is appended Contains 14 references 13 figures and 7 tables KC
