Handbook of Mobile Learning Zane L. Berge, Lin Muilenburg, 2013-06-19 Winner of the AECT Division of Distance Learning DDL Distance Education Book Award This handbook provides a comprehensive compendium of research in all aspects of mobile learning one of the most significant ongoing global developments in the entire field of education Rather than focus on specific technologies expert authors discuss how best to utilize technology in the service of improving teaching and learning For more than a decade researchers and practitioners have been exploring this area of study as the growing popularity of smartphones tablets and other such devices as well as the increasingly sophisticated applications for these devices has allowed educators to accommodate and support an increasingly mobile society This handbook provides the first authoritative account of the theory and research that underlies mobile learning while also exemplifying models of current and future practice

Handbook of Adolescent Literacy Research Leila Christenbury, Randy Bomer, Peter Smagorinsky, 2011-06-10 The first comprehensive research handbook of its kind this volume showcases innovative approaches to understanding adolescent literacy learning in a variety of settings Distinguished contributors examine how well adolescents are served by current instructional practices and highlight ways to translate research findings more effectively into sound teaching and policymaking The book explores social and cultural factors in adolescents approach to communication and response to instruction and sections address literacy both in and out of schools including literacy expectations in the contemporary workplace Detailed attention is given to issues of diversity and individual differences among learners Winner Literacy Research Association's Fry Book Award

YOUTH CARE KNOWLEDGE EXCHANGE THROUGH ONLINE SIMULATION GAMING Roelof Petrus Hortulanus, 2014 Youth care multi disciplinary networks need flexible interactive and attractive tools and methods for knowledge exchange in view of timely effective and durable help in complex parenting problem situations Social media virtuality simulation and gaming gain an increasing significance in the way people share information learn and organize themselves This leads to the question whether youth care practice is ready to adopt some online practicalities for network exchange This design study describes model development and model appreciation of online role play simulation gaming as a time pace and place independent way to share expertise information and knowledge among the actors in youth care practice The results show that youth care professionals think that simulation gaming is relevant and convenient to unravel difficult issues to elaborate network strategies and to jointly reflect on intervention The research is unique in domains of youth care intervention and in game theory The singularity of contexts and actors is taken as starting point in a cross over of game design and behavioral science Online role play simulation gaming leads to a better understanding of complexity in youth care situations and to a greater awareness of network capacities and capabilities and helps to establish accountability of choices of intervention
