certain tasks they're not just as good as us they're becoming infinitely better and at the same time massively more surprising. We are so impressed by what they can do that we give them a lot of agency. But because they are so hard to comprehend this leads to all kinds of unintended consequences. In the 20th century things were simple we had the economy of corporations. In the first two decades of the 21st century we saw the emergence of the economy of people otherwise known as the digital economy enabled by the internet. Now we're seeing a new economy take shape the economy of algorithms.
