Perspective Agents Chris Perry, 2024-01-15. A guidebook for anyone looking to comprehend and prosper in the new world order. In the age of autonomy, two parallel revolutions are unfolding. The first is a technological uprising in which machines and algorithms achieve an unprecedented level of independence. Automation and AI will transform industries, altering the fabric of our economy and society. But this technological tide is more than a force of disruption; it's a harbinger of a new way of thinking and living. The parallel revolution is deeply human and even more profound. As traditional structures crumble, a new sense of human autonomy emerges, allowing us to find meaning and direction in unexpected ways. **Perspective Agents** delves into this complex dance between machine and man, challenging us to adapt to and thrive in this new era. Drawing from extensive research, interviews, and personal experience, communications consultant Chris Perry explores the problem with using conventional wisdom to make sense of new realities. Through an unflinching examination of both technological and human evolution, this book encourages readers to harness the potential of the Autonomous Age, see the world anew through new sources, and forge a path for professional and personal growth. *E for Entrepreneur* Neeraj Chopra, Kartika Kanishka Sharma, 2021-11-15.
