Proceedings of the 23rd European Conference on e-Learning Fernando Moriera, **Regulating Cyber Technologies: Privacy Vs Security** Nathalie Rebe,2023-01-30 Regulating cyber matters is a complex task as cyberspace is an intricate world full of new threats related to a person s identity finance and private information Algorithm manipulation hate crimes cyber laundering and data theft are strong menaces in the cyber world New technologies are generating both privacy and security issues involving anonymity cross border transactions virtual communications and assets among others

This book is a collection of works by experts on cyber matters and legal considerations that need addressing in a timely manner. It comprises cross disciplinary knowledge that is pooled to this end. Risk mitigation tools including cyber risk management, data protection regulations as well as ethical practice guidelines are reviewed in detail. The regulatory issues associated with new technologies along with emergent challenges in the field of cybersecurity that require improved regulatory frameworks are considered. We probe ethical material and enforcement threats thus revealing the inadequacy of current legal practices. To address these shortcomings we propose new regulatory privacy and security guidelines that can be implemented to deal with the new technologies and cyber matters.
