Teacher Strategies for Addressing

Social-Emotional Needs of P-12 Students Calhoun, Christie Feazell, 2025-10-08 In today's rapidly evolving educational landscape the role of teachers extends far beyond the traditional boundaries of imparting academic knowledge Teachers are increasingly called upon to address the social emotional needs of their students recognizing that a child's emotional wellbeing is intrinsically linked to their academic success and overall development The social emotional development of students is a critical component of their education influencing their ability to form positive relationships manage emotions and navigate the complexities of school life As educators understanding and addressing these needs can create a more inclusive supportive and effective learning environment Teacher Strategies for Addressing Social Emotional Needs of P 12 Students provides practical evidence based strategies to support the diverse emotional and social needs of students from preschool through 12th grade It discusses the various aspects of social emotional learning and offers actionable strategies that teachers can implement in their classrooms Covering topics such as academic achievement mentor programs and student community this book is an excellent resource for educators administrators counselors teacher educators policymakers researchers academicians and more

Handbook of Research on Transformative and Innovative Pedagogies in Education Keengwe, Jared, 2022-05-13 Various pedagogies such as the use of digital learning in education have been used and researched for decades but many schools have little to show for these initiatives This contrasts starkly with technology supported initiatives in other fields such as business and healthcare Traditional pedagogies and general digital technology applications have yet to impact education in a significant way that transforms learning A primary reason for this minimal impact on learning is that digital technologies have attempted to make traditional instructional processes more efficient rather than using a more appropriate paradigm for learning As such it is important to look at digital technology as a partner and use transformative applications to become partners with students not teachers to empower their learning process both in and out of school The Handbook of Research on Transformative and Innovative Pedagogies in Education is a comprehensive reference that identifies and justifies the paradigm of transformative learning and pedagogies in education It provides exemplars of existing transformative applications that if used as partners to empower student learning have the potential to dramatically engage students in a type of learning that better fits 21st century learners Covering topics such as gamification project based learning and professional development this major reference work is an essential resource for pre service and in service teachers educational technologists instructional designers educational administration and faculty researchers and academicians seeking pedagogical models that inspire students to learn meaningfully

AI as Help and Hindrance in

Education Duarte, Alexandre, Andrade, José Gabriel, Dias, Patricia, 2025-07-28 AI is rapidly transforming the educational landscape offering both challenges and opportunities On one hand AI enhances personalized learning experiences and streamlines administrative tasks On the other hand AI raises concerns around data privacy academic integrity and an over

reliance on automated systems As educational institutions increasingly integrate AI into classrooms and curriculums it is essential to understand its dual role as a powerful tool and a potential obstacle AI as Help and Hindrance in Education explores the use of AI in learning platforms It comprehensively discusses both the opportunities and challenges to the integration of AI in education Covering topics such as bilingualism online course evaluations and virtual learning environments this book is an excellent resource for educators academic researchers students instructional designers school administrators and education technology professionals in both the public and private sectors
