Bacteria to AI N. Katherine Hayles,2025-02-12 A new theory of mind that includes nonhuman and artificial intelligences
The much lauded superiority of human intelligence has not prevented us from driving the planet into ecological disaster For
N Katherine Hayles the climate crisis demands that we rethink basic assumptions about human and nonhuman intelligences
In *Bacteria to AI* Hayles develops a new theory of mind what she calls an integrated cognitive framework ICF that includes
the meaning making practices of lifeforms from bacteria to plants animals humans and some forms of artificial intelligence
Through a sweeping survey of evolutionary biology computer science and contemporary literature Hayles insists that another
way of life with ICF at its core is not only possible but necessary to safeguard our planet s future *Daedalus* ,1903
