 This press guide aims to provide a comprehensive accurate and informative guide to the UK press both print and broadcast
 and to give details about the leading newspapers and periodicals in the United Kingdom *The Green Agenda in American
 Politics* Robert J. Duffy,2003 Organizations such as the Sierra Club and Friends of the Earth are familiar to anyone with an
 interest in environmental protection As activist groups they played by the same rules for years But in 1994 the rules changed
 With the Republican takeover of Congress environmental groups faced sweeping changes in federal policies that threatened
 the enforcement of environmental laws As these organizations intensified their efforts to meet these challenges they also
 altered their electoral strategies and political spending patterns This book traces those actions and shows what they mean
 for the future of environmentalism in the political arena While environmental advocacy groups have become bigger and
 better funded in recent years so have the corporate interests that compete with them for the attention of public and
 politicians The Green Agenda in American Politics offers a new look at environmental advocacy that focuses on contemporary
 lobbying electioneering and agenda setting in this new context Drawing on interviews with activists from a wide range of
 organizations Robert Duffy describes what environmental groups actually do when lobbying officials or the public He
 examines activity at both national and state levels to emphasize their growing use of websites email and action alert
 networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to
 unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns

Duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s. He then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives. He also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations. Brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular, Duffy's book opens a new window on the influence of Big Money in the supposedly democratic electoral process.
