Rebooting a Nation Joel Burke, 2025-04-03 How did a small post Soviet state become a digital and e government powerhouse producing world leading tech companies and pioneering policies for remote residency Three decades after gaining independence from the Soviet Union Estonia is a nation transformed Today the country is known worldwide as a startup hub boasting billion dollar companies including Wise Veriff and Bolt but even more impressive are Tallinn s pioneering efforts in e government With 99 per cent of government services digitalised and accessible online

citizens can vote via computer or file their taxes online in minutes and Estonia's use of artificial intelligence to enhance and automate its offering to citizens long predates ChatGPT. Drawing on his experience as a former official for the Republic of Estonia, Joel Burke offers unique insight into the country's rapid rise as a tech and e-government powerhouse since the turn of the century. From the founding of Skype to the future of the e-state, he unveils the tactics and stories behind Estonia's spectacular journey after years of Soviet occupation and mismanagement to global tech leadership. For those hoping to learn from Estonia's incredible journey, Burke offers insights into the government's use of AI, its creation of a digital society, and its cultivation of a culture driving public sector creativity and innovation. **Rebooting a Nation** is an informative and entertaining masterclass in Estonia's modern history.

Gen Z at Work in Central and Eastern Europe Elżbieta

Wąsowicz-Zaborek, Adam Oleksiuk, 2025-11-25 In an era of rapid transformation in the world of work, Generation Z emerges as a transformative force reshaping traditional employment models with their distinct preferences and values. As the first fully digital native generation, they seek flexibility, remote work opportunities, and a healthy work-life balance. This book examines these transformative trends in the context of Central and Eastern Europe, focusing on three diverse and representative countries: Poland, Czechia, and Estonia. Together, these nations illustrate the region's economic diversity and innovation, offering insights into how local labour markets are responding to the expectations of this new workforce. Grounded in original research, including interviews and case studies, the book presents quantitative analysis to explore Gen Z's preferences, attitudes, and aspirations. The findings shed light on demographic variations such as gender and place of residence and examine how these factors influence work preferences across the three countries. Beyond identifying trends, the book offers practical recommendations addressing the challenges and opportunities posed by generational change. The narrative unfolds through three interconnected themes: the socio-economic dynamics of Poland, Czechia, and Estonia; the comparative analysis of survey findings highlighting generational similarities and differences; and broader implications for industries, organizational strategies, and regional economies. Special attention is given to emerging work models such as work from anywhere (WFA) and workation hubs in Europe, emphasizing their role in shaping regional development and economic policy. The book bridges the gap between academic research and real-world application, making it an essential resource for scholars, researchers, advanced students, and policymakers. Chapters 6 and 7 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) 4.0 license.
