Simple Ai Note Taking App For Beginners For Us Audience:

A Web of Our Own Making Antón Barba-Kay, 2023-05-11 There no longer seems any point to criticizing the internet We indulge in the latest doom mongering about the evils of social media on social media We scroll through routine complaints about the deterioration of our attention spans We resign ourselves to hating the internet even as we spend much of our waking lives with it Yet our unthinking surrender to its effects to the ways it recasts our aims and desires is itself digital technology s most powerful achievement A Web of Our Own Making examines how online practices are reshaping our lives outside our notice Barba Kay argues that digital technology is a natural technology a technology so intuitive as to conceal the extent to which it transforms our attention He shows how and why this technology is reconfiguring knowledge culture politics aesthetics and theology The digital revolution is primarily taking place not in Silicon Valley but within each of us

Transmedia Selves James Dalby, Matthew Freeman, 2023-10-20 This book examines the mediated shift in the contemporary human condition focusing on the ways in which we synthesise with media content in daily life essentially transmediating ourselves into new forms and re creating ourselves across media Across an international roster of essays this book establishes a transdisciplinary theory for the transmedia self exploring how technological ubiquity and digital self determination combine with themes and disciplines such as celebrity culture fandom play politics and ultimately broader self conception and projection to inform the creation of transmedia identities in the twenty first century Specifically the book repositions transmediality as key to understanding the formation of identity in a post digital media culture and transmedia age where our lives are interlaced intermingled and narrativised across a range of media platforms and interfaces This book is ideal for scholars and students interested in transmedia storytelling cultural studies media studies sociology philosophy and politics

The Power of Neurodiversity Thomas Armstrong, 2025-07-29 From a bestselling author and psychologist an exploration and celebration of neurodivergence completely revised with the most up to date research and insights From ADHD and dyslexia to autism the number of diagnosis categories listed by the American Psychiatric Association has tripled in the last fifty years With so many people affected it is time to revisit our perceptions of people with disabilities Thomas Armstrong illuminates a new understanding of neuropsychological disorders He argues that if they are a part of the natural diversity of the human brain they cannot simply be defined as illnesses Armstrong explores the evolutionary advantages special skills and other positive dimensions of these conditions including autism ADHD dyslexia schizophrenia anxiety intellectual disabilities and mood disorders With an emphasis on positive niche construction for each area The Power of Neurodiversity is a manifesto as well as a keen look at disability as well as a must read for parents teachers and anyone who is looking to learn more about neurodivergence
