 Antón-Pardo,2023-09-28 ARTIFICIAL INTELLIGENCE is already here and is set to revolutionize education and society Start  
 learning to use AI tools that will help you save time in your teaching tasks while you join the forefront of the changes brought  
 by this technology and in the process improve the way you teach The first goal of this guide like most of my books is to  
 showcase AI tools and applications that allow teachers to complete tasks in less time Therefore it does not seek to innovate  
 education through the use of AI nor explain how to use it in class with students However many of the tools mentioned can be  
 adapted for classroom use with students and undoubtedly the time saved by using AI will bring us greater personal well  
 being which will positively influence our teaching The second goal of this book is to serve as a guide that organizes the  
 immense amount of AI tools that have emerged in a short time and guide the reader in their exploration It does not mean to  
 be an in depth tutorial on any of the tools which would be unmanageable Instead it aims to provide an overview on their uses  
 and applications The book explores and evaluates many of the AI tools applicable to teaching work grouped into 25  
 categories including      **Google Classroom For Teachers** Oliver Williams,2021 HOW TO MAKE YOUR ONLINE

 Optimization GEO Generative Engine Optimization and LLMO Large Language Model Optimization into simple actionable  
 steps for non technical creators marketers and business owners A first of it s kind to introduce measurable frameworks for  
 Conscious Visibility it is our mirror Every search engine every algorithm every AI assistant is a reflection of the knowledge  
 we feed it When misinformation rises it s not the machine that failed it s the human ecosystem that optimized for attention  
 instead of understanding The Augmented Human Renaissance invites us to reverse that pattern It asks a simple but profound  
 question What if we taught machines to remember our truth not our noise Consciousness First Approach to AI Visibility  
 Traditional SEO asks How can I rank higher Conscious Visibility asks What do I want the world and machines to remember
