Human Computer Interaction in Healthcare Andre

W. Kushniruk, David R. Kaufman, Thomas G. Kannampallil, Vimla L. Patel, 2024-11-13 This thoroughly updated edition reports on the current state of human computer interaction HCI in biomedicine and healthcare focusing on the cognitive underpinnings of human interactions with people and technology With health information technologies becoming increasingly vital tools for the practice of clinical medicine this book draws from key theories models and evaluation frameworks and their application in biomedical contexts to apply this to current research in HCI However numerous challenges remain in order to fully realize their potential as instruments for advancing clinical care and enhancing patient safety There is a general consensus that health IT has not realized its potential as a tool to facilitate clinical decision making the coordination of care and improvements in patient safety Embracing sound principles of iterative design can yield significant dividends It can also enhance practitioner s abilities to meet meaningful use requirements The purpose of the book is two fold to address key gaps on the applicability of theories models and evaluation frameworks of HCI and human

factors for research in biomedical informatics It highlights the state of the art drawing from the current research in HCI It also serves as a graduate level textbook highlighting key topics in HCI relevant for biomedical informatics computer science and social science students working in the healthcare domain Cognitive Informatics for Biomedicine Human Computer Interaction in Healthcare is indispensable to those who want to ensure that the systems they build and the interactive environments that they promote will reflect the rigor and dedication to human computer interaction principles that will ultimately enhance both the user's experience and the quality and safety of the care that is offered to patients It is an essential reference to all who are interested in the application of these new techniques within healthcare from students of informatics through to clinicians informatics researchers and developers of health IT looking to incorporate them into their day to day workflow
