Controlling International Technology Transfer Issues Perspectives And Policy Implications:

Controlling International Technology Transfer Tagi Sagafi-Nejad, Richard W. Moxon, Howard V.

Perlmutter, 2013-10-22 *Controlling International Technology Transfer Issues Perspectives and Policy Implications* discusses topics that concern technology transfer control. The book assesses related issues and perspectives as well as examines alternative policy imperatives from different perspectives. The text is comprised of 15 chapters which are organized into three parts. The first part contains Chapters 1 to 8 that tackle the underlying issues of technology transfer control such as alternative channel and modes, the impact of new control systems, pricing, taxation, and business practices. The second part contains Chapters 9 to 14 which cover topics concerning policy perspectives and implication such as control incentives, technology importing, exporting, and control systems. The last part contains Chapter 15 which provides a closing discussion regarding actors, issues, and alternatives. This book will be of great interest to readers who are concerned with the technology transfer systems.

Controlling International Technology Transfer Tagi Sagafi-nejad, Richard W. Moxon, Howard V.

Perlmutter, 1981 *The underlying issues: Policy perspectives and implications* Transnational Corporations and Innovative Activities John Cantwell, 1994 *Technology Export From The Socialist Countries* Jan Monkiewicz, Jan

Maciejewicz, 2019-07-11 Only since the 1970s have the East European Socialist countries known collectively as Comecon participated in the international exchange of technology as exporters. In this book Drs Monkiewicz and Maciejewicz analyze the technology export performance of the Comecon countries. They begin by defining the nature of technology as a commodity, analyzing the structural characteristics of the international market, and outlining both the cost and benefits of technology export. Later chapters provide an overview of Comecon technological policies in the 1970s with particular attention to the export/import factor and Comecon regional technological cooperation. In-depth analysis is presented through case studies of the experiences of Poland and Czechoslovakia. The book concludes with a discussion of the implications of technology export by socialist countries, particularly its potential impact on existing global patterns of technological dependence and domination.

Managing International Technology Transfer Min Chen, 1996 As a result of the rapid globalization of business, the subject of international technology transfer is now of importance to both scholars and practitioners of international business. In drawing his examination from the fields of international studies, international management, and international law, Min Chen provides a comprehensive consideration of the management and legal implications of international technology transfer. The text is divided into four organically linked parts which discuss comparative national policies on technology transfer, the international protection of intellectual property, international licensing, and lastly international technology transfer via other major commercial channels. This work should be of interest to students and academics in business and technology, also to international executives and lawyers.

International Technology Transfer Nathan Rosenberg, Claudio Frischtak, 1985 For many years it was assumed that technology transfer

would prove an unqualified answer for the problems of the developing nations vastly simplifying and accelerating their rate of economic development The papers in this volume question these assumptions demonstrating how technology transfer can be very costly and that success is contingent upon a variety of factors including the direction of indigenous technology and the political setting of the recipient country *Cooperative Forms of Transnational Corporation Activity* Peter J. Buckley, John H. Dunning, 1994 Controlling international technology transfer. Issues, perspectives and policy implications. Conference, 1979, Philadelphia, Pa. Seattle, Wash Tagi Sagafi-Nejad, Richard W. Moxon, Howard V. Perlmutter, 1981
