Bloomfield, 1974 Disarmament, a Select Bibliography, 1973-1977 Dag Hammarskjöld Library, 1978 Repertory of Disarmament Research United Nations Institute for Disarmament Research, 1982 **Strategic Studies Reference Guide**, 1977 **Nuclear Strategy and National Style** Colin S. Gray, 1986 Author Colin Gray maintains that there are distinctive U S and Soviet national styles which come into play in each power s nuclear strategic planning And the U S s lack of understanding of the fundamental historical and anthropological factors that make up the Soviet national style has led to poor U S policy Perhaps no issue is more critical for the U S as nuclear strategy planning this book is a statement to be reckoned with in the surrounding debate Co published with Abt Books **Great Decisions** Foreign Policy Association, 1978 *Disarmament* Dag Hammarskjöld Library, 1973 Public Affairs Information Service Bulletin, 1974 **Bulletin of the Public Affairs Information Service** Public Affairs Information Service, 1976 **Subject Catalog, 1975** Library of Congress, 1975 **International Studies Documents**, 1977 *Tactical Nuclear Weapons* Stockholm International Peace Research Institute, 2020-11-19 In the 1970s tactical nuclear warfare was a topical issue The introduction of the new generation of tactical nuclear weapons into Europe could have had disastrous consequences These new weapons had already been developed by nuclear weapon laboratories and pressures were growing for their deployment On first sight smaller and more accurate nuclear weapons may seem more humane and militarily preferable to the relatively high yield tactical nuclear weapons currently deployed But some of these new types of weapons would blur the distinction between nuclear and conventional weapons and their use would make escalation to strategic nuclear war extremely likely Indeed the argument for these new weapons is that their use in wartime is more credible and therefore acceptable than current types of tactical nuclear weapons This perception could easily lead to the exceedingly dangerous idea that some types of tactical nuclear war were winnable The fact has to be faced that any use of nuclear weapons is almost certain to escalate until all available weapons are used To believe otherwise is to believe that one side will surrender before it has used all the weapons in its arsenal History shows that this is most unlikely to happen Because of its importance SIPRI organized a meeting to discuss the whole question Originally published in 1978 this book is the outcome of that meeting Law Books, 1876-1981 R.R. Bowker Company, 1981
