Controlled Or Reduced Smoking An Annotated Bibliography:

Controlled Or Reduced Smoking Pamela Rogers, Steve Baldwin, 1999-06-30 Smoking and tobacco have received much attention in the literature throughout this century particularly in the last 30 years The causal role of smoking in a large number of fatal diseases has been established Concern about the ill effects of smoking has led to anti smoking campaigns revolving around primary prevention and smoking cessation This book focuses on the literature directed to those who cannot or will not quit smoking and offers an informed risk reduction approach aimed directly at the chronic smoker A large number of smoking interventions are represented as well as the characteristics of smokers and the outcome of the respective interventions The importance of continued research on controlled or reduced smoking as opposed to that of smoking cessation is outlined and methodological flaws are offered to alert future researchers This literature will be an invaluable resource to health professionals therapists and others involved in the issue of health and the hazards of continued smoking

Bulletin of Bibliography ,1999 **An Introduction to Health Services Research** Dawn-Marie Walker, 2014-01-07 This is a primary comprehensive textbook for people who are considering undertaking a piece of health related research It is an accessible companion with the aim of getting the reader to think broadly about all of the issues that need to be considered when embarking on a project This is a pragmatic book a step by step guide to research which mirrors the structure of a research project taking you through the thought process for designing and conducting your study from formulating the right research question at idea inception ascertaining what methodologies and analysis can answer what type of questions right through to dissemination all presented in an easy digestible style The book is full of case study illustrations and practical tips such as how to work out a research budget and obtaining funding for your project discussion of what permissions need to be obtained when conducting research with people and how to involve public and patients The authors are all experienced researchers and so this book is an accumulation of collective wisdom on common research challenges and issues
